

Here are my comments with respect to some of the issues:

**1. Enforcement of Laws:**

- Emphasize the need for police training on laws governing protest management.
- Encourages support for police to enforce laws during protests to maintain peace and order.
- 

**2. Hate Speech vs Free Speech:**

- It is important to distinguish between hate speech and free speech.
- We must advocate for a zero-tolerance approach towards hate speech at public demonstrations.

**3. Blocking of Streets/Areas, Encampments, and Enforcement on Private Property:**

- We must understand and deal with the legality of protests and actions like obstructing highways.
- We need improved protest management by police to ensure public safety.

**4. Masking:**

- We have serious concerns about concealing identity at protests.
- We advocate for a zero-tolerance approach towards hate speech and updated police training on hate crime enforcement.

**5. Training of Police/Education:**

- We believe that there is a need for police to receive updated training on antisemitism and hate crime enforcement.
- We support additional resources for police to address hate crimes effectively.

**6. Reporting Hate Crimes:**

- 
- We advocate for a zero-tolerance approach towards hate symbols/speech at protests and incitement for genocide.

**7. Additional Actions:**

- We encourage reporting hate symbols/graffiti in the community.

Thank you for your attention to this important matter.
