- P80. [Amendment to Increase the Value of the Existing Contract for 2019 - Senior Human Resources Project Manager – Contract Extension](#)

The Board was in receipt of a report dated March 28, 2019 from Mark Saunders, Chief of Police, with regard to this matter.

Recommendation:

It is recommended that the Toronto Police Services Board (Board) approve an amendment to increase the existing contract with Leo-Pisces Service Group Incorporated for human resources project management services in the amount of \$158,200 (including taxes), for a total contract value of \$610,991 (including taxes).

Deputy Chief Barbara McLean confirmed to the Board that this contract extension is until December 2019. She advised that initially, the Service anticipated the contract would end in May 2019 with the possibility of extending. However, the modernization work within Human Resources requires ongoing and sustained support, and this contract is imperative to this work. Deputy Chief McLean confirmed that this contract is for one individual, and not multiple positions.

- P81. [Toronto Police Services Board's Anti-Racism Advisory Panel \(ARAP\) Quarterly Update](#)

The Board was in receipt of a report dated April 12, 2019, from Uppala Chandrasekera and Notisha Massaquoi, Co-Chairs, Anti-Racism Advisory Panel (ARAP), with regard to this matter.

Ms. Massaquoi was in attendance and provided an update to the Board in regards to this matter.

Ms. Massaquoi and Ms. Chandrasekera advised the Board that, through ARAP's work and the work of the Board Office, a draft Race-Based Data Collection, Analysis and Reporting Policy has been developed. This draft Policy will come to

the Board for consideration and approval in the future. As part of the policy development process, consultations with various stakeholders will occur over the next several months. These consultations will inform the draft Policy that ultimately comes to the Board. They also said that, with the Service represented at ARAP, the discussion has also considered implementation requirements and realistic timelines for implementation. Ms. Massaquoi advised the Board that the draft Policy will include provisions requiring regular review and updating, based on emerging best practice, and that the Policy will be premised on a phased-in approach, ultimately with application across all areas of the Service.

P87. [2018 Annual Hate Crime Statistical Report](#)

The Board was in receipt of a report dated April 1, 2019 from Mark Saunders, Chief of Police, with regard to this matter.

Recommendation:

It is recommended that the Toronto Police Services Board:

- 1) Receive this report for information; and,

- 2) Forward a copy of this report to the City of Toronto Executive Committee for information.

Deputations: Brenda Ross  
Derek Moran

In response to a question from Mayor Tory as to the discrepancy between the national hate crime statistics increasing and the local statistics for Toronto decreasing, Acting Detective Sergeant Scott Purches advised the Board that the national statistics included in the report are from 2017, while the local statistics are from 2018. He further advised that in 2017, 50% of the police services in Ontario experienced a decrease in the number of hate crime incidents and only two services experienced an increase.

A/Detective Sergeant Purches advised the Board that his unit regularly reaches out to the most victimized communities, connecting with key community leaders and providing outreach in an effort to bring awareness about this topic, both with respect to specific concerns, and more generally. He advised that the Service takes a multi-layered approach to dealing with hate crimes, with some officers specifically trained in this area, while, at the same time, ensuring that all officers generally understand the issue of hate crime so that they can be vigilant in identifying it. He said that the Service is trying to reduce the cynicism in the community that may exist around the issue of hate crime by raising awareness about this topic and providing information about the rights, process and outcomes that can be involved.

P88. [Annual Report: 2018 Activities and Expenditures of Community Consultative Groups](#)

The Board was in receipt of a report dated March 8, 2019 from Mark Saunders, Chief of Police, with regard to this matter.

Recommendation:

It is recommended that the Board receive this report for information.

In response to questions from Chair Pringle, Deputy Chief Peter Yuen advised the Board that the Chief's Youth Advisory Committee has not met for approximately a period of a year and half, noting that one of the major challenges was coordinating with other City entities that have a similar mandate and/or membership (e.g. the City of Toronto's Youth Cabinet). Deputy Yuen further advised that the Service is

currently partnering with the City of Toronto to determine the most effective way to ensure the youth voice is heard in the context of policing issues.

Deputy Yuen also advised that the Chief's Advisory Council has not recently been meeting regularly; it meets at the Chief's prerogative to discuss topical and sensitive issues. Chief Saunders advised the Board that he was exploring ways to refresh this Council and update its mandate and composition to reflect current issues and challenges.

Chair Pringle asked that the Board receive a future update on the status of these consultative groups, including the challenges faced and what contributions have been made so far. He said that it is important to optimize the input of the community through groups like these.

## Toronto Police Services Board Report

---

April 13, 2019

To: Members  
Toronto Police Services Board

From: Marie Moliner  
Acting Chair

**Subject: Amendments to Board Policies arising out of HRTO Settlement**

### **Recommendation(s):**

It is recommended that the Board approve the amendments to the following Board policies, as appended:

- Collection, Use and Reporting of Demographic Statistics Policy
- Designated Special Events Policy
- Race and Ethnocultural Equity Policy
- Equal Opportunity, Discrimination and Workplace Harassment

### **Financial Implications:**

There are no financial implications arising out of the recommendation in this report.

### **Background / Purpose:**

In late 2016, as a result of a Human Rights Tribunal of Ontario application made against both the Chief and the Board, an agreement was reached between the parties. The agreement included a public interest portion and the retention of a subject matter expert to assist in the development of Transgender inclusive policies, procedures, orders and forms. (Min. No. P286/16 refers). That expert, D. Ryan Dyck, subsequently recommended the amendment of a number of Board policies. To date, three of these policies have been amended.

### **Discussion:**

In his report, Mr. Dyck also recommended the amendment of four additional Board policies, as well as the reconsideration of a current policy statement, and the consideration of additional new Board policies. Board staff, in consultation with legal

counsel, have reviewed the recommendations and, at this time, are recommending that the following Board policies be amended as attached:

- Collection, Use and Reporting of Demographic Statistics Policy
- Designated Special Events Policy
- Race and Ethnocultural Equity Policy
- Equal Opportunity, Discrimination and Workplace Harassment

### ***Collection, Use and Reporting of Demographic Statistics Policy***

Mr. Dyck recommended amendments to this Policy as part of his report.

However, it should also be noted that this policy is already currently under review. The Board, at its meeting of December 18, 2019, approved the following Motion:

***THAT the Board directs that:***

- 1. The Board refer its existing "Collection, Use and Reporting of Demographic Statistics" Policy to the Board's Anti-Racism Advisory Panel (ARAP) to be reviewed, with recommendations made for amendments to the Board, based on a consideration of current standards and best practices related to the collection, analysis and public reporting of race-based data related to complainants and victims (i.e. those involved in a call for service), those arrested, those who are stopped by police, and those who are involved in incidents involving police use of force; (Min. No. P257/18 refers.)***

At this time, ARAP is still reviewing the policy and it is anticipated a revised or new policy will come forward in the near future.

In the interim, Board Staff made the amendments recommended by the expert.

As a result, Board Staff:

- Updated the list of grounds to include gender identity, gender expression in alignment with protections currently afforded in Ontario's Human Rights Code.
- Listed or group grounds alphabetically to avoid implication of hierarchy

The changes to the other three policies are described below:

### ***Designated Special Events Policy***

With respect to this Policy, Board Staff:

- Revised subsections 10-11 on "Training" to explicitly acknowledge that 'adequate and effective training' may include consideration of cultural safety training when special events relate to marginalized communities (e.g. Trans sensitivity training for officers working during Pride/Trans march).

### ***Race and Ethnocultural Equity Policy***

With respect to this Policy, Board Staff:

- Updated the list of grounds in section 1 to reflect the full grounds listed in the Ontario Human Rights Code including gender identity and gender expression, which are currently missing.
- Listed/grouped grounds alphabetically to avoid the implication of a hierarchy.
- Strengthened language around training for senior leaders and their unique and important responsibilities with respect to this issue.

### ***Equal Opportunity, Discrimination and Harassment Prevention Policy***

With respect to this Policy, Board Staff:

- Added “transphobic” to section 2, to explicitly address discrimination against trans and gender diverse individuals.
- Amended section 4 to codify training requirements agreed to in the Minutes of Settlement.
- Strengthened language around training for senior leaders and their unique and important responsibilities with respect to this issue.

### ***Changes to the Board’s Aboriginal Policing — Statement of Commitment and Guiding Principles***

In addition, the expert recommended that the Board consult with members of Toronto’s Aboriginal communities to determine if amendments/additions may be required to the Board’s *Aboriginal Policing — Statement of Commitment and Guiding Principles* to ensure that two-spirited peoples are adequately recognized and respected in their interactions with police.

On April 9, 2019, Board Staff attended a meeting of the Service’s Aboriginal Consultative Committee (Aboriginal CCC) to discuss the expert’s recommendation. Members of the Aboriginal CCC determined that it was their view that no amendments were required to the current Statement, as it was written in a broad and inclusive way that would already adequately recognize and respect two-spirited peoples. As a result, no amendments are proposed to the Board’s *Aboriginal Policing — Statement of Commitment and Guiding Principles*.

### **Conclusion:**

Therefore, it is recommended that the Board approve the amendments to the following Board policies, as appended:

- Collection, Use and Reporting of Demographic Statistics Policy
- Designated Special Events Policy
- Race and Ethnocultural Equity Policy

- Equal Opportunity, Discrimination and Workplace Harassment

## TORONTO POLICE SERVICES BOARD

### DESIGNATED SPECIAL EVENTS

<b>DATE APPROVED</b>	July 16, 2015	Minute No: P186/15
<b>DATE(S) AMENDED</b>		
<b>DATE REVIEWED</b>		
<b>REPORTING REQUIREMENT</b>		
<b>LEGISLATION</b>	<i>Police Services Act, R.S.O. 1990, c.P.15, as amended, s. 31(1)(c)</i> <i>Ontario Human Rights Code, R.S.O. 1990 c. H. 19</i>	
<b>DERIVATION</b>	<i>Independent Civilian Review into Matters Relating to the G20 Summit, 2012</i>	

The role of the Toronto Police Services Board is to ensure adequate and effective policing for the City of Toronto. Due to its local, national and international stature, the City of Toronto regularly hosts high-profile special events. As some of these events may be large in magnitude, there is significant impact on the Toronto Police Service (“the Service”).

For the Board to fulfil its role in ensuring adequate and efficient policing, it is the policy of the Board that the Chief of Police will ensure that organizationally-significant special events are designated as such, and that regular consultation is undertaken with the Board regarding the policing of such events, and regarding the continuity of police operations throughout the city for the duration of the events.

Consultation between the Board and the Chief of Police is the main process by which the Board can engage in an assessment of the adequacy and effectiveness of the policing services provided during Designated Special Events, as defined in this policy. Accordingly, this policy is intended to establish a framework for ensuring that the associated Service planning, training, and operations during Designated Special Events will involve consultation and co-ordination between the Board and the Chief of Police.

#### **Criteria for Designated Special Events:**

For the purpose of this policy, the Board will determine, on recommendation of the Chief of Police, whether a special event will be a Designated Special Event based on an evaluation of the following criteria. The Chief's recommendation will be made in a report to the Board. The Board may also, of its own accord, recommend that a special event be determined to be a Designated Special Event, in consultation with the Chief:

- a) The event is beyond the scope of day-to-day operations for the Service and has the potential to substantially disrupt public peace, order or security;
- b) The event is sponsored or hosted by the federal or provincial government, or another external entity;
- c) The time frame available for planning may negatively affect the adequacy and effectiveness of police services;
- d) The event requires extraordinary funding and reimbursement agreements with external agencies;
- e) Operational and/or planning decisions are subject to the approval of any other entity;
- f) The command and control structure involves police agencies from multiple jurisdictions;
- g) The event features extraordinary operational requirements;
- h) Requests for legislative change to accommodate the policing of the event may be required;
- i) Continuity of regular policing service may be at risk of disruption; and
- j) Any other relevant criteria.

It is the policy of the Toronto Police Services Board that:

***Planning for Designated Special Events***

1. Where the Board or Chief of Police learns of the potential for the City of Toronto to be selected as the host city for an event that is sponsored by the federal or provincial government, or another entity, and which is determined to be a Designated Special Event, the Chief of Police will make a formal request to the host/sponsor on matters relevant to the Service's participation in the Designated Special Event and will provide the information to the Board;
2. Where the Service will be involved in policing and security for a Designated Special Event, the Chief of Police, in consultation with the Board, will work to establish a framework funding agreement with the relevant entity or entities;
3. Where specific timing issues may require the Chief of Police or the Board to deviate from usual practices in order to expedite the procurement of equipment and other supplies, the Chief of Police will provide to the Board, in a timely manner, relevant information regarding any expenditures;
4. Where there is a possibility that the Designated Special Event will affect the Service's ability to deliver regular policing service in the City of Toronto, the Chief of Police will provide the Board with information demonstrating how continuity of service will be achieved.

***Contribution Agreements***

5. Where a contribution agreement with a government entity will determine the recovery of costs applicable to the Service's involvement in a Designated Special Event, the Chief of Police will keep the Board apprised of the negotiation of the contribution agreement;

6. The Board, if required, may obtain legal advice concerning the Board's financial exposure as a result of the contribution agreement and, in particular, whether there are any provisions that may place at risk the Board's ability to recover all funds spent in relation to the Designated Special Event;

### ***Operational Plans***

7. Where the Chief of Police is required to develop operational plans for a Designated Special Event, the Chief of Police will:
  - a) Provide the Board with confirmation that the operational plan provides for adequate and effective policing; and
  - b) Inform the Board of any barriers and/or challenges which may impede the Service's ability to provide adequate and effective policing during the Designated Special Event, including whether the amount of time available for planning is sufficient.
8. Where the circumstances of the Designated Special Event include an extraordinary operational requirement, the Chief of Police will ensure, where appropriate, that major event planning specialists and other relevant experts are engaged to assist the Service in the development of operational plans and the design of any associated specific processes:

### ***Joint Operations***

9. Where the Service is involved in a joint operation related to the policing of a Designated Special Event, the Chief of Police will provide the Board with information regarding:
  - a) The planning structure, including information regarding the Service's role in that structure and whether planning decisions by the Service are subject to the approval of any other entity; and
  - b) The command and control structure for the Designated Special Event, including information to demonstrate that it will enable the Service to provide adequate and effective police services for the Designated Special Event and for the City of Toronto generally.

### ***Training***

10. The Chief of Police will ensure the provisions of adequate and effective training of Service officers and external officers seconded to assist the Service with policing a Designated Special Event
11. The "adequate and effective training" referred to in paragraph 10 will include cultural safety training where appropriate, the designated special events relates to historically marginalized communities.

12. The Chief of Police will provide confirmation to the Board that such training has been provided, along with sufficient details to give the Board an opportunity to identify any gaps in its policies that may need to be addressed prior to the Designated Special Event

***Public Communications***

13. The Chief of Police will provide information to the Board with respect to significant communications issued to the public during the course of a Designated Special Event; and

***Establishment of Sub-Committee***

14. When considered appropriate, the Board may establish a Designated Special Event Sub-Committee to facilitate information-gathering, information-sharing and consultation between the Board, the Chief of Police and other entities, such as Toronto City Council and other levels of government.

<b>DATE REVIEWED</b>	November 15, 2010 May 11, 2011	Minute No: P292/10 Minute No: P114/11
<b>REPORTING REQUIREMENT</b>	As set out below	
<b>LEGISLATION</b>	<i>Police Services Act</i> , R.S.O. 1990, c.P.15, as amended, s. 31(1)(c). <i>Ontario Human Rights Code</i> , R.S.O. 1990, c. H.19.	
<b>DERIVATION</b>	Rule 4.3.9 – Release of Statistics	

Toronto is one of the most diverse cities in the world. The Toronto Police Services Board embraces the diversity of the City of Toronto.

The Board is committed to ensuring that the Toronto Police Service will provide services in partnership with all the communities of the City and in a way that is equitable, respectful, inclusive and culturally competent.

The Board is committed to improving services to the public. Based on the principle that only what is measured can be effectively managed, the Board believes that it is important to collect, use and report statistics related to the grounds prohibited under the Ontario *Human Rights Code*.

The Board acknowledges that no single statistic is or should be determinative of how deployment decisions are made; rather, such decisions should be based on a combination of considerations because safety in a neighbourhood or the experience of policing by a community depends on an intersectionality of factors.

The Board categorically opposes the misuse of statistics in a manner that stigmatizes any community.

The Board requires that this policy be implemented in keeping with the Ontario *Human Rights Code* and the *Municipal Freedom of Information and Protection of Privacy Act*. Therefore, in developing and implementing this policy, the Board is committed to working in consultation with the Ontario Human Rights Commission and the Office of the Information and Privacy Commissioner.

The Toronto Police Service will be permitted to collect, use and report statistics related to the grounds prohibited under the Ontario *Human Rights Code*, i.e., race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, age, marital status, family status or disability, as necessary and appropriate.

It is the policy of the Toronto Police Services Board that:

1. The Chief of Police will ensure that the Service establishes a procedure for the collection, use and reporting of statistics based on the following *Code* grounds and the ground of socio-economic status: race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, gender expression, age, marital status, family status or disability, and that the procedure include provisions to maintain appropriate degrees of confidentiality;
2. The Chief of Police will ensure that the statistics are not to be used by the Service, under any circumstances, to stigmatize, ascribe criminality to, make value judgments on or otherwise stereotype any community based on group characteristics;
3. The Chief of Police will report on the collection and use of statistics from time to time as may be required by the Board.

#### Board Members

4. The Board and Board Members will not use statistics under any circumstances, to stigmatize, ascribe criminality to, make value judgments on or otherwise stereotype any community based on group characteristics.

### RACE AND ETHNOCULTURAL EQUITY POLICY

<b>DATE APPROVED</b>	March 23, 2006	Minute No: P81/06
<b>DATE(S) AMENDED</b>	November 15, 2010	Minute No: P292/10
<b>DATE REVIEWED</b>	November 15, 2010	Minute No: P292/10
<b>REPORTING REQUIREMENT</b>	Chief to report to Board annually as set out below.	
<b>LEGISLATION</b>	<i>Police Services Act</i> , R.S.O. 1990, c.P.15, as amended, s. 31(1)(c). <i>Ontario Human Rights Code</i> , R.S.O. 1990, c.H.19.	
<b>DERIVATION</b>		

Toronto is one of the most diverse cities in the world. It is home to people from nearly every country, religion, racial and ethnocultural background. The Toronto Police Services Board embraces the racial and ethnocultural diversity of the City of Toronto. The Board is committed to ensuring that:

The Toronto Police Service will provide services in partnership with all the communities of the City, and in a way that is equitable, respectful, inclusive and culturally competent; and

The Board and the Service will have human resources practices in place which aim to make the Service truly reflective of the City at all levels and enable all its employees and volunteers to work without discrimination or harassment, regardless of race, ethnicity, culture, nationality, religion or language.

To this end, the Board supports the efforts of the Toronto Police Service to achieve racial and ethnocultural equality.

It is the policy of the Toronto Police Services Board that:

1. Discriminatory treatment of members of the public contrary to the *Human Rights Code* will not be tolerated. This includes discrimination or harassment based on the following *Code* grounds as well as the ground of socio-economic status: race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, gender expression, age, marital status, family status or disability;

2. Discriminatory treatment of Members of the Service contrary to the *Human Rights Code* will not be tolerated. This includes discrimination or harassment based on the following *Code* grounds as well as the ground of socio-economic status: race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, gender expression, age, record of offences, marital status, family status or disability;
3. Practices that may be racist, as well as behaviours that underlie and reinforce such practices, will not be tolerated; and
4. The Chief of Police will develop procedures to implement this policy. These procedures will cover, but will not be limited to, the following areas:

#### Service Delivery

Service delivery includes all those ways in which Members of the Toronto Police Service interact with the public. This includes, but is not limited to, stops, searches, execution of warrants, response to 911 calls, participation in public events, membership of police-community committees, partnership and outsourcing arrangements.

#### Professional Development

Professional development includes training programs that address the content of the *Human Rights Code*, how it applies to Service Members, and their responsibilities and legal obligations to abide by the *Code*. Professional development also includes training programs that address issues of diversity and cultural competencies and promote prevention of actions that are contrary to this policy. These programs will be evaluated on a continual basis to assess their adequacy and effectiveness in meeting the objectives of this policy.

Professional development includes training programs for the Chief, Command Officers and Service Members holding senior positions that are based on the *Human Rights Code* and that highlight the unique and significant duties and responsibilities of senior leaders to take action to stop or prevent discrimination contrary to the *Code*.

#### Recruitment, Selection and Promotion

Recruitment, selection, hiring and promotional practices will promote and facilitate greater participation in, and greater access to, employment and promotion by members of diverse groups protected by the *Human Rights Code* at all levels of the Service.

#### Professional Conduct

Procedures must reinforce and encourage positive, professional, ethical and racial and ethnoculturally sensitive practices.

#### Supervision and Accountability

The Chief of Police will report to the Board annually on the effectiveness and impact of the implementation of this policy. Such reporting should include any procedures developed, an assessment of the impact and effectiveness of such procedures on practices throughout the organization, and should provide details of mechanisms to ensure accountability by all levels of management.

### EQUAL OPPORTUNITY, DISCRIMINATION AND HARASSMENT PREVENTION

<b>DATE APPROVED</b>	July 20, 2001	Minute No: P198/01
<b>DATE(S) AMENDED</b>	March 13, 2014 November 15, 2010	Minute No: P53/14 Minute No: P292/10
<b>DATE REVIEWED</b>	November 15, 2010	Minute No: P292/10
<b>REPORTING REQUIREMENT</b>	Chief to report to Board annually. Toronto Police Service - Human Resources Strategy Annual Reports.	
<b>LEGISLATION</b>	<i>Police Services Act</i> , R.S.O. 1990, c.P.15, s 31(1)(c), 47(1)(2). <i>Ontario Human Rights Code</i> , R.S.O. 1990, c.H.19.	
<b>DERIVATION</b>	Adequacy Standards Regulation - AI-003	

The Toronto Police Services Board is committed to the principle that every person has a right to receive police services without discrimination (including harassment) contrary to the Ontario *Human Rights Code* (the *Code*), and that every member of the Toronto Police Service (the *Service*) has a right to work in an environment that is free of discrimination (including harassment) contrary to the *Code*.

This policy intends to ensure that human rights legal protections are respected, applied and enforced by the Chief through Service procedures that:

- a) provide equal treatment without discrimination, including harassment, contrary to the *Code* to all individuals who receive police services and to all individuals employed by the *Service*;
- b) treat allegations of discrimination, including harassment, contrary to the *Code* in a serious, effective and timely manner;
- c) act to prevent discrimination, including harassment, contrary to the *Code* in the delivery of policing services and to all individuals employed by the *Service*;
- d) where discrimination is found, take corrective measures as appropriate, including measures to ensure future compliance with the *Code*;

e) hold accountable those in positions of supervision for their actions in relation to their human rights obligations and ensures that they are guided by principles of fairness, respect and equity as guaranteed at law in the *Code*; and

f) are designed and regularly reviewed to ensure that they do not result in adverse impact, even if unintentional, to groups of persons protected by the *Code*.

Therefore, it is the policy of the Toronto Police Services Board that:

1. The Chief of Police will develop procedures that address:
  - a. equal opportunities that are consistent with the principles of the *Police Services Act* and the *Code*, including recruitment, selection, career development and promotion, ;
  - b. workplace harassment and that develop and maintain a program to implement the policy's objectives, in accordance with the *Occupational Health and Safety Act*;
  - c. responding to, and preventing discrimination and harassment in the workplace, including stereotyping; and
  - d. employment accommodation in accordance with the *Code* and section 47 of the *Police Services Act*; and
  - e. reasonable accommodation as required by the *Code* of members of the public who come into contact with police.
2. The Chief of Police will ensure that no material that is discriminatory contrary to the *Code*, including sexist, racist and transphobic material, is displayed in the workplace..
3. The Chief of Police will implement an employee appraisal system that includes key commitments related to human rights obligations, discrimination (including harassment), diversity and inclusion.
4. The Chief of Police will ensure that all officers receive annual mandatory training on human rights obligations in the *Code*, which will include
  - a. Information about officers' obligations under the *Code* with respect to providing services to the public and with respect to officers' employment relationships and conditions;
  - b. information on bias-free policing based on grounds protected by the *Code*, that is,  
  
race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, gender expression, age, marital status, family status or disability.
5. The Chief of Police will ensure that the Chief, Command Officers and Service Members holding senior positions receive annual mandatory training specific to their rank and responsibilities. This training should include information on their unique and significant

obligations as leaders of the service to prevent discrimination (including harassment) in employment and in the delivery of policing services, as well as information on how leadership is expected to respond to and address discrimination when it arises.

**Subject: Special Constable Appointments and Re Appointments – April 2019**

### **Recommendation:**

It is recommended that the Board approve the appointments and re-appointments of the individuals listed in this report as special constables for the Toronto Community Housing Corporation (T.C.H.C.), subject to the approval of the Minister of Community Safety and Correctional Services.

### **Financial Implications:**

There are no financial implications relating to the recommendations contained within this report.

### **Background / Purpose:**

Under Section 53 of the *Police Services Act of Ontario*, the Board is authorized to appoint and re-appoint special constables, subject to the approval of the Minister of Community Safety and Correctional Services. Pursuant to this authority, the Board now has agreements with the University of Toronto (U. of T.), Toronto Community Housing Corporation (T.C.H.C.) and Toronto Transit Commission (T.T.C.) governing the administration of special constables (Min. Nos. P571/94, P41/98 and P154/14 refer).

[The Service has received requests from T.C.H.C. to appoint the following individuals as special constables:](#)

Table 1 Name of Agency and Special Constable Applicant

T.C.H.C.	Brown, Learie Erstein	Re- Appointment
T.C.H.C.	Davidson, Jay D.	Re- Appointment
T.C.H.C.	Flynn, Bryan	Re- Appointment

**Discussion:**

The special constables are appointed to enforce the *Criminal Code of Canada*, *Controlled Drugs and Substances Act*, *Trespass to Property Act*, *Liquor Licence Act* and *Mental Health Act* on their respective properties within the City of Toronto.

The agreements between the Board and each agency require that background investigations be conducted on all individuals who are being recommended for appointment or re-appointment as special constables. The Service’s Talent Acquisition Unit completed background investigations on these individuals and there is nothing on file to preclude them from being appointed as special constables for a five year term.

The T.C.H.C. has advised the Service that the above individuals satisfy all of the appointment criteria as set out in their agreement with the Board. The agencies’ approved strength and current complements are indicated below:

**Table 2 Name of Agency, Approved Strength and Current Number of Special Constables**

<b>Agency</b>	<b>Approved Strength</b>	<b>Current Complement</b>
T.C.H.C.	300	117

**Conclusion:**

The Service continues to work together in partnership with the agencies to identify individuals who may be appointed as special constables who will contribute positively to the safety and well-being of persons engaged in activities on T.C.H.C. properties within the City of Toronto.

Deputy Chief of Police James Ramer, Specialized Operations Command, will be in attendance to answer any questions that the Board may have with respect to this report.

## Toronto Police Services Board Report

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Amendment to Increase the value of the Existing Contract through 2019 – Vendor of Record IntelliGO Networks Inc. for Palo Alto Hardware, Software, Maintenance and Professional Services**

### Recommendations:

It is recommended that the Toronto Police Services Board (Board):

- (1) approve an amendment to increase the existing Vendor of Record (V.O.R.) contract of \$484,600 with IntelliGO Networks Inc. to \$754,700 for the period January 1, 2017 to December 31, 2019, to supply hardware, software licences, professional services and maintenance renewal; and
- (2) authorize the Chair to execute all required agreements and related documents on behalf of the Board, subject to approval by the City Solicitor as to form.

### Financial Implications:

The current IntelliGO Networks Inc. (IntelliGO) contract started on January 1, 2017 for a period of one year and included three (3) one year extension options. The contract value for the total contract period is currently \$484,600, representing an annual cost of \$121,150 based on maintaining existing hardware and software at the time of the contract for each year. All values are inclusive of taxes.

Table 1 shows the contract amount and compares it to the actual spending for each year.

Table 1 – Original Contract Amount vs Actual Spending

Year	Contract Amount	Actuals + Projection	Variance to Contract	Variance Explanation
2017	\$121,150	\$147,200	\$26,050	Maintenance increased due to acquisition of additional equipment to enhance security for 9-1-1 and Radio network site.

2018	\$121,150	\$145,200	\$24,050	Revised maintenance estimate based on additional equipment, as described above.
2019	\$121,150	\$153,300	\$32,150	Additional I.T. security enhancements associated with one of the Service's physical sites.
<b>Total to March 30, 2019</b>	<b>\$363,450</b>	<b>\$445,700</b>	<b>\$82,250</b>	
Additional 2019 Requirements		<b>\$309,000</b>		Additional requirements for 2019 detailed in a subsequent table.
<b>Total Revised Contract Value to the end of 2019</b>		<b>\$754,700</b>		

To date, \$445,700 has been spent. The increased cost to date of \$82,250 against the original contract is primarily associated to greater security requirements to accommodate growing I.T. infrastructure related to 9-1-1 and radio network and the set-up of the Service's new disaster recovery/business continuity (Peer to Peer) site. All costs to date were budgeted and funded through the operating budget maintenance account.

The funding requirements and assumptions for the remaining contract period in 2019 have been reviewed and an additional \$309,000 is needed to meet the Service's needs for the remainder of the year. Acquiring additional security hardware and software is part of the original scope of the contract, without specifying a quantity or financial value in order to provide flexibility to accommodate future growth and evolving needs of the Service. The revised contract value is estimated to be \$754,700 and is therefore subject to Board approval.

Revised cost estimates to the original contract and associated funding sources are as follows:

Table 2 - 2019 Additional Requirements

<b>Acquisition(s)</b>	<b>Cost Estimate</b>	<b>Funding Source</b>
Palo Alto hardware and software licences for the Service Data Centres	\$162,000	Information Technology Business Resumption Lifecycle replacement project provided for in the Service's 2019 -2028 Capital Program (Min. No. P6, 2019 refers).
Replacement of Palo Alto hardware and software	\$147,000	Peer to Peer Site capital project budget.

licences due to the implementation of the Peer to Peer site		
Total	\$309,000	

The final option year for 2020, originally estimated at \$121,150, will not be exercised and the Service will obtain a new quote with updated requirements.

**Background / Purpose:**

The purpose of this report is to request approval from the Board to increase the value of the V.O.R. IntelliGO current contract to \$754,700. The increase represents the lifecycle replacement of hardware necessary to maintain the Service’s network security platform. As the contract value will now exceed the \$500,000 approval authority delegated to the Chief, under the Financial Control By-law, Board approval is required.

**Discussion:**

In 2016, the Service issued a Request for Quotation (R.F.Q. #1191330-16) for Palo Alto hardware and software, the Service’s standard for its network security platform. This was awarded to IntelliGO Networks Inc. The original cost estimate of the contract was based on known information at the time and focused on the maintenance of existing IT infrastructure. Contractual language included the ability to procure additional hardware, software licences, professional services and maintenance services, without specifying a quantitative and financial estimate, to accommodate the Service’s growth and increase in security requirements.

Information Technology Services (I.T.S.) is currently in the process of procuring hardware replacement as part of the Lifecycle Program for maintaining its security related equipment. In addition, I.T.S. is anticipating the need to procure additional hardware and security software to support items for the secondary data centre, radios, 9-1-1 and Computer Aided Dispatch (C.A.D.) network infrastructure as the current hardware will be relocating to the new Peer-to-Peer site.

The Service intends to initiate a new competitive process in 2019 for the supply of hardware, software licenses, professional services and maintenance renewal for 2020 requirements.

**Conclusion:**

This report requests Board approval for an increase in the current contract value with IntelliGO Networks Inc. for the period of January 1, 2017 to December 31, 2019, as the revised value \$754,700 will exceed the Chief’s \$500,000 delegated authority in the Board’s Financial Control By-law.

Mr. Tony Veneziano, Chief Administrative Officer, will be in attendance to answer any questions the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police

## Toronto Police Services Board Report

---

March 28, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Amendment to Increase the Value of the Existing Contract for 2019 - Senior Human Resources Project Manager – Contract Extension**

### **Recommendation:**

It is recommended that the Toronto Police Services Board (Board) approve an amendment to increase the existing contract with Leo-Pisces Service Group Incorporated for human resources project management services in the amount of \$158,200 (including taxes), for a total contract value of \$610,991 (including taxes).

### **Financial Implications:**

The current contract value is \$452,791 (including taxes) and is expected to be consumed by the end of May 2019. An increase of \$158,200 is therefore required in order to provide sufficient funds to extend the contract to December 31, 2019. This will bring the total contract value to \$610,991, including taxes.

The cost of this extension will be funded from the Modernization Reserve.

### **Background / Purpose:**

The purpose of this report is to request Board approval to increase the existing contract by \$158,200 in order to continue services to December 31, 2019. This will enable a continuity of services for the ongoing H.R. transformation initiatives.

As the increase in cost results in the contract exceeding \$500,000, Board approval is required in accordance with the Board's Financial Control By-law.

**Discussion:**

A Request for Services (R.F.S. 1235242-17) for a Senior H.R. Project Manager was issued on July 10, 2017 by Purchasing. After evaluation against the pre-determined selection criteria, Ms. Silvia Stankovic, working for Leo-Pisces Service Group Incorporated, was the successful candidate in the process. The contract was awarded on September 5, 2017. Including the option to exercise extensions, the Leo-Pisces Service Group Incorporated contract ends December 31, 2019.

As a Senior H.R. Project Manager, Ms. Stankovic provides project management support and discipline to the People & Culture Pillar. She is primarily focused on the H.R. Modernization program as envisioned in Recommendations 24 and 30 of *The Way Forward*, which was adopted by the Board as its 2017 – 2019 Business Plan. She is also involved with several other critical initiatives including: implementation of a revised H.R. service delivery model; an organizational restructure; and the design and delivery of several new innovative people programs.

Ms. Stankovic's experience and background in H.R. transformation and project management makes her role vital to the successful implementation and adoption of the transformation. Given the scope of the H.R. Modernization initiative, expectations from stakeholders, and significant operational demands requiring the focus of the People & Culture managers, this extension allows for a skilled and dedicated project management resource to sustain the effort required to create a modern and progressive Human Resources function.

**Conclusion:**

The Service is satisfied with the services of Ms. Silvia Stankovic. Additional funding is available through the Modernization Reserve, and the contract term ends December 31, 2019.

The Board is therefore being requested to approve a \$158,200 increase to the existing contract with Leo-Pisces Service Group Incorporated, for a total contract value of \$610,991.

Deputy Chief Barbara McLean, Human Resources Command, and Mr. Tony Veneziano, Chief Administrative Officer, will be in attendance to answer any questions the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police

## Toronto Police Services Board Report

---

April 12, 2019

To: Chair and Members  
Toronto Police Services Board

From: Uppala Chandrasekera and Notisha Massaquoi  
Co-Chairs, Anti-Racism Advisory Panel (ARAP)

**Subject: Toronto Police Services Board's Anti-Racism Advisory Panel (ARAP) – Quarterly Update**

**Recommendation(s):**

It is recommended that the Board receive this report for information.

**Financial Implications:**

There are no financial implications resulting from the recommendation contained in this report.

**Background / Purpose:**

The Board, at its meeting of December 14, 2017, considered a report from Chair Pringle with respect to the "Implementation of Recommendations Arising from the Inquest into the Death of Andrew Loku." (P261/17 refers). At this report notes, three of the recommendations made by the jury in this Inquest were directed to the Board, including recommendation #17, which states as follows:

1. Establish a new committee to consider possible or identified disparities in services and outcomes for racialized persons and consider interventions to address any such disparities. The committee should include representatives of the Toronto Police Service, subject matter experts and members of racialized communities, including the Black community. The committee should consider the intersectionality of mental health and race both in terms of member composition and issues to be addressed.

At its meeting of April 18, 2018 the Board approved the establishment of the Anti-Racism Advisory Panel (ARAP), including its mandate, terms of reference, as well as a number of other relevant details. (Min. No. P62/18 refers). At its meeting of August 23, 2018, the Board approved the recommended membership of ARAP (Min. No. 158/18 refers).

The Board also implemented a regular reporting back concerning ARAP's work, such that "ARAP will provide regular quarterly reports, highlighting the key activities of ARAP." The first of these quarterly reports was provided to the Board at its meeting of December 18, 2019 (Min. No. P257/19 refers). This is the second quarterly report.

## **Discussion:**

### *ARAP's mandate expanded to include race-based data policy development*

ARAP's work was initially intended to focus only on the establishment of a monitoring framework for the Board to use in assessing the response to and implementation of each of the Loku Inquest recommendations directed to the Toronto Police Service and the Board, including the creation of key benchmarks and performance indicators related to each recommendation.

However, at the same meeting at which the Board considered ARAP's first quarterly report, the Board discussed the Ontario Human Rights Commission interim report, which was released on December 10, 2019: *A Collective Impact: Interim report on the inquiry into racial profiling and racial discrimination of Black persons by the Toronto Police Service* ("OHRC Interim Report").

As part of its discussion on the contents and recommendations in the OHRC Interim Report – and, specifically on the collection of race-based data in the context of policing – the Board reviewed some of the historical and more current context surrounding the collection of race-based data:

The Board is committed to using the collection of race-based data to promote evidence-based policy-making and organizational change, including in monitoring systemic racial and other disparities to identify gaps, eliminate barriers and advance the fair treatment of every person;

The Board currently has a policy entitled "Collection, Use and Reporting of Demographic Statistics," approved in October 2007 and subsequently amended in 2010 and 2011, which permits the Chief of Police to collect race-based data from members of the public, analyze this data, and report this data publicly; however, this Policy has not been operationalized by the Service;

The Board approved a motion at its meeting of October 26, 2017, in which the Chief was directed to provide a report that includes past recommendations referencing the collection of race-based statistics and a description of the Chief's strategy for implementing those recommendations;

The Toronto Police Service currently collects and publicly reports on race-based data pursuant to its obligations under O. Reg. 58/16, *Collection of Identifying Information in Certain Circumstances*;

In April 2018, the Government of Ontario published its *Data Standards for the Identification and Monitoring of Systemic Racism*, which permits the collection of race-based data (among other types) by provincial public-sector organizations;

There are no data standards for the collection of race-based data that apply to municipal organizations, such as the Board, and the Ontario Human Rights Commission has not published specific data standards concerning the collection and public reporting of race-based data by police services; and,

The Board views it as essential that its “Collection, Use and Reporting of Demographic Statistics” Policy be amended to capture more current standards and best practices related to the collection, analysis and public reporting of race-based data.

Ultimately, the Board approved a Motion that:

1. The Board refer its existing “Collection, Use and Reporting of Demographic Statistics” Policy to the Board’s Anti-Racism Advisory Panel (ARAP) to be reviewed, with recommendations made for amendments to the Board, based on a consideration of current standards and best practices related to the collection, analysis and public reporting of race-based data related to complainants and victims (i.e. those involved in a call for service), those arrested, those who are stopped by police, and those who are involved in incidents involving police use of force;
2. The Chief continue to engage with ARAP’s work through the existing representation and participation of Service Members on ARAP, so that perspectives of an operational nature can be shared and considered during the development of revisions to the Policy;
3. ARAP report back to the Board with a recommended updated Policy for Board consideration by no later than the Board’s May 2019 meeting; and
4. The Board request the Ontario Human Rights Commission to provide a presentation to ARAP concerning best practices it has identified for the collection of race-based data by police services, including any challenges associated with collecting and publishing race-based data arising from various types of policing interactions, and recommendations for addressing those challenges in a manner that balances the law enforcement function police must provide with the importance of building community trust.

#### *ARAP’s policy development work to date*

As a result, since this time, ARAP has shifted its focus to the development of a new policy concerning the collection of race-based data. This has been a lengthy and very comprehensive process, involving considerable research (domestic and international), analysis, discussion and deliberation.

ARAP has met on the following dates as part of this comprehensive policy development process:

- February 14, 2019
- March 18, 2019
- April 4, 2019

Each meeting has been at least four hours in length, and has involved a number of presentations, substantive discussion, as well as debate concerning the varied approaches to the collection, analysis and public reporting of race-based data – both in the policing context, and in other service-delivery contexts as well (e.g. health care). The discussions have been productive and have resulted in the establishment of clear policy goals and purposes. These discussions have also resulted in conclusions concerning the approach that ARAP endorses with respect to some of the approaches that will be included in the ultimate draft policy.

At ARAP's February 14, 2019 meeting, various organizations that have conducted race-based data collection or advised on it, provided presentations concerning approaches taken in different jurisdictions, and their strengths and weaknesses. This provided ARAP with a valuable foundation as it considers how to recommend changes to the Board's current policy on data collection. Presentations were provided by: representatives of the Ontario Human Rights Commission (OHRC), the Government of Ontario's Anti-Racism Directorate, and representatives of the Service.

At ARAP's March 18, 2019 meeting, ARAP continued its policy development process. Members received a presentation from the Service regarding police records and how they are maintained, including issues of retention, access, and corrections. ARAP then focused on a Discussion Guide that outlined the key elements of a potential Policy. Members identified the main points for discussion and deliberation, determined some of the major and significant foundational aspects of the Policy, and engaged in an initial discussion about the consultation process it would use as part of the policy development process.

Following this meeting, and on the basis of (i) some of the key decision points that were agreed to by ARAP, and (ii) cross-jurisdictional research that was conducted, Board Staff created a preliminary draft of the new Policy. As part of this work, they examined similar policies and literature from Canada and around the world, including various Canadian provinces, the United Kingdom, Australia, the United States and other jurisdictions.

ARAP met again on April 4, 2019 to review the draft Policy. ARAP reviewed each section in great detail, engaging in much debate and discussion concerning specific content. ARAP also reviewed a draft Consultation Plan, which members view as critical to ensuring that the community and other stakeholders are adequately and meaningfully consulted. The Consultation Plan was fairly extensive and proposes in-person and

online consultation with over fifty subject matter experts, professional and community organizations, as well as Service Members. It was determined that, in order to properly and meaningfully conduct a robust consultation process with such a vast array of key stakeholders and community groups, additional time would be required than was originally scheduled. ARAP agreed that the initial timelines needed to be amended, as it would not be feasible to finalize a 'best in class' Policy by the Board meeting scheduled for May 30.

ARAP anticipates that more time spent on quality and varied consultations, gathering feedback, and conducting thorough analysis is key to ensuring that stakeholder input is a foundational component of the Policy. As a result, ARAP is proposing that a final draft Policy be brought to the Board for its consideration at the Board's September meeting, scheduled for September 19, 2019.

**Conclusion:**

It is recommended that the Board receive this report for information.

## Toronto Police Services Board Report

---

April 03, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Capital Budget Variance Report for the Toronto Police Service, Year Ending December 31, 2018**

### Recommendation(s):

It is recommended that the Toronto Police Services Board (Board) forward a copy of this report to the City of Toronto's (City) Chief Financial Officer for information and inclusion in the overall variance report to the City's Budget Committee.

### Financial Implications:

Toronto City Council (Council), at its meeting of February 12, 2018, approved the Toronto Police Service's (Service) 2018-2027 capital program at a net amount of \$20.9 Million (M) and gross amount of \$44.1M for 2018, and a 10-year net total of \$220.4M and gross total of \$523.3M. Please see Attachment A for more details.

The following table summarizes the 2018 expenditure results:

Category	2018 Gross (M's)	2018 Net (M's)
2018 approved program excluding carry forward	\$44.1	\$20.9
2017 carry forwards	\$32.1	\$12.7
<b>Total 2018 available funding</b>	<b>\$76.2</b>	<b>\$33.6</b>
2018 Expenditures - December 31, 2018	\$55.9	\$27.1
<b>Variance to available funding</b>	<b>\$20.3</b>	<b>\$6.5</b>
Carry forward to 2019	\$18.6	\$6.0
Spending rate	73%	81%

\$18.6M of the gross under-expenditure of \$20.3M will be carried forward to 2019. The following table summarizes the 2018 funding of \$1.7M that will not be carried forward to 2019, but rather returned to the Province, City or Reserve. Please refer to attachment B for details on carry forwards.

Table 1- Returned Funding

Project name	Amount (M's)	Reason
Connected Officer – Phase I	\$0.45	Grant funding, could only be utilized until March 31, 2018. Unspent funds have been returned to the Province
Body Worn Camera	\$0.47	Phase I of the project was completed in 2018. Funds will be returned to the City
Automatic Vehicle Location System	\$0.08	Project completed under budget. Amount is not required and funds will be returned to Vehicle and Equipment Reserve
Small Equipment Replacement	\$0.01	Project is complete. Amount is not required. Funds will be returned to Vehicle and Equipment Reserve
Closed Circuit Television (C.C.T.V.)	\$0.05	Project is complete. Amount is not required. Funds will be returned to Vehicle and Equipment Reserve
Wireless Parking System	\$0.5	Project will be completed in 2019. This funding is not required and will be returned to the Vehicle and Equipment Reserve
Radar Unit Replacement	\$0.08	Project is complete. Amount is not required. Funds will be returned to Vehicle and Equipment Reserve
Total	\$1.7	

**Background / Purpose:**

The purpose of this report is to provide the Board with the status of the Service’s capital projects as at December 31, 2018.

**Discussion:**

Attachment A provides the Service’s approved 2018-2027 capital program.

**Status of Capital Projects:**

Attachment B provides a status summary of the ongoing projects from 2017 as well as projects that started in 2018. Any significant issues/ concerns or major project progress are highlighted below in the “Key Highlights/Issues” section of this report.

**Key Highlights / Issues:**

As part of its project management framework, the Service tracks the project risk (i.e. On Track, At Risk, Off Track) to reflect the status of capital projects. The overall health of each capital project is based on budget, schedule and scope considerations. The colour codes are defined as follows:

- On Track (Green) – on target to meet project goals (scope/functionalities), and on budget and schedule, no corrective action required;
- At Risk (Yellow) – at risk of not meeting certain goals, some scope, budget and/or schedule issues, and minimal corrective action required; and
- Off Track (Red) – high risk of not meeting goals, significant scope, budget and/or schedule issues, and extensive corrective action required.

To date, most of the projects are tracking ‘On Track’ or ‘At Risk’. However, the Enterprise Business Intelligence (E.B.I.) project is showing as Off Track, as it is experiencing issues that are putting the project at risk of meeting project goals. More information on this project is provided later in this report. The 54/55 Division project will also remain Off Track until the master plan study for the site is approved by City Council.

The subsequent section summarizes key 2018–2027 capital project updates, which include an assessment of the project health. Summary information includes status updates at the time this report was written.

**54/55 Divisions Amalgamation**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date		
54/55 Divisions Amalgamation	6,203	0.0	6,203.0	171.6	6,031.4	6,031.4	39,873.0	622.7	Delayed	Off Track

*Project Description:*

The amalgamation of 54 and 55 Divisions into one district facility will reduce the long-term costs of operating and maintaining two structures, and will support the recommendations for a modernized, economical and more efficient public safety delivery model. The current plan is to return the 54 and 55 Division properties to the City once the new consolidated facility is built.

*Work to date:*

The site for the new consolidated district facility is the Toronto Transit Commission's (T.T.C.) Danforth garage located at 1627 Danforth Avenue, as approved by the City's Executive Committee and Council in January 2018 (Min. No. P227/18 refers).

Subsequent to Council approval, the master planning exercise was initiated, which involves extensive community consultations, technical studies, confirmation of the T.T.C.'s requirements, and the exploration of potential partners in the site development and conceptual site plans. The results of this planning exercise are expected to be presented to City Council in the second quarter of 2019.

Create T.O. has taken the lead in terms of stakeholder and community engagement in the site planning discussions and will be funding the master planning exercise due to the number of involved agencies. Senior members of the Service's Facilities Management unit continue to participate in these stakeholder meetings to ensure that the Service's requirements will be incorporated into the overall plan.

From the available funding of \$6.2M, \$172K was utilized for the installation of security equipment at 54 Division, as well as cameras and cabling to allow for monitoring of the station from 55 Division. Due to the movement of personnel, minor renovations and electrical work have also been required. The remaining funding of \$6M will be carried forward to 2019.

*Future Planned Activities:*

Following Council approval of the site plan, the Service will issue a Request For Quotation (R.F.Q.) to pre-qualified consultants. Consultant selection will be completed in 2019. Procurement will be initiated in the first quarter of 2020, followed by construction later in 2020.

The status of the project will remain Red - Off Track until the detailed design and project timelines are determined following the completion and approval of the master planning study.

**41 Division**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date		
41 Division	0.0	395.0	395.0	125.4	269.6	269.6	38,928.0	125.4	On Time	<b>On Track</b>

*Project Description:*

Due to its aging infrastructure, 41 Division was identified as a priority in the Service's Long Term Facility Replacement Program a number of years ago. Cost assessments have confirmed that it is not economically feasible to address the ongoing building deficiencies or to retrofit the existing 41 Division to accommodate the current needs of the Service.

The phased construction and demolition approach for a new building on the existing site will provide the Service with a new district facility at the corner of Birchmount and Eglinton Avenues, an optimal site that is easily accessible with ample area for future expansion.

*Work to Date:*

A feasibility study was completed in 2018 outlining options for a phased demolition and construction of the new building.

From the available funding of \$395K, \$270K will be carried forward to 2019.

*Future Planned Activities:*

During the construction, personnel will continue to occupy a portion of the existing building and portable offices, when required, to allow for uninterrupted business continuity.

The Service's Facilities Management unit is proceeding to retain the services of an architectural consulting firm to prepare the building design documentation. It is anticipated that design planning will commence by the first quarter of 2019.

**32/33 Divisions Amalgamation**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date		
32/33 Division	0.0	200.0	200.0	63.8	136.2	136.2	11,940.0	63.8	On Time	At Risk

*Project Description:*

The Service's long term facilities plan included the required renovation of the 32 Division facility to enable new technologies and required building improvements, such that facility is more operationally effective and compliant with the Accessibility for Ontarians with Disabilities Act.

Subsequently, as a result of recommendations in The Way Forward report, the Service also commenced exploring the feasibility of amalgamating 32 and 33 divisional operations into a new 32/33 District Headquarters Facility, to be located on the existing 32 site.

*Work to Date:*

This project encompasses a major interior retrofit to the existing building, as well as upgrades to the base building. The Service has secured an interior design consulting firm to redesign the building interior in an effort to optimize the use of available space and to improve the movement of both personnel and persons in custody.

From the available funding of \$0.2M, \$0.1M will be carried forward to 2019.

*Future Planned Activities:*

It has been determined that the existing capital budget should be able to accommodate the interior renovations necessary to amalgamate the 32/33 district operations and staffing model. However, this will be known with greater certainty once the design and space programming work commences.

The cost of additional parking required to accommodate Service and member vehicles is not known. Accordingly, a feasibility study is underway for the existing site, parking area and building access to determine the most appropriate strategy to increase parking, maximize parking efficiency and provide improved access to Service members. The costs for additional parking is estimated between \$8M to \$19M depending on the solution and the number of parking it will create. The alternatives between \$8 - \$10M include above grade parking which is not acceptable by the City Planners. The only alternative that has four levels excavation of the site for underground parking structure is costed at \$19M and is acceptable by the City Planners. The Service is looking at other options to accommodate the parking shortage. Construction estimates will increase if additional parking is required, which will then impact the funding required to complete this project. Based on the results of the study and the additional funding required, the feasibility of consolidating the divisions into one site will be revisited. However, this does not preclude 32 and 33 divisions operating under a district model. The Board will be kept apprised of the status of this project, through the variance reporting process.

**Peer-to-Peer Site (Disaster Recovery Site)**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date		
Peer to Peer Site	3,424.4	10,359.0	13,783.4	12,041.8	1,741.6	1,741.6	19,924.3	18,179.7	On Time	On Track

*Project Description:*

This project provides funding for a new Peer-to-Peer (disaster recovery/business continuity) facility. The Service's current peer-to-peer data centre is co-located with the City's main data centre in a City-owned and managed facility. The current location has significant space and power requirement issues, which affect both the City and the Service. In addition, the current line-of-sight distance from the primary site is seven

kilometers, which is significantly less than the industry minimum standard of 25 kilometers for disaster recovery sites.

*Work to Date:*

Construction has concluded with minor deficiencies, which were addressed and completed at the end of February 2019. Information technology and Telecommunication equipment fit up of the new building has commenced.

From the available funding of \$13.8M in 2018, \$1.7M will be carried forward to 2019.

*Future Planned Activities:*

Due to winter weather conditions, some outdoor work was postponed to the spring of 2019. The completion of the physical move from the City-owned facility to the new data centre has also been postponed from the end of the second quarter in 2019 to the fourth quarter, 2019 due to the time required to address deficiencies that are a pre-requisite to some fit up activities.

**Transforming Corporate Support (H.R.M.S, T.R.M.S)**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date		
Transforming Corporate Support	1,509.0	1,300.0	2,809.0	1,704.3	1,104.7	1,104.7	8,742.5	4,940.3	Delayed	At Risk

*Project Description:*

Closely aligned with the ongoing restructuring of the Service’s human resource function, this project involves upgrading and enhancing the Service’s Human Resource Management System (H.R.M.S.) and its capabilities to better support the Service’s needs.

This project provides for an investment that will consolidate the current H.R.M.S. and Time Resource Management System (T.R.M.S.), with the objective developing a new overall solution, with enhanced and value added processes that will be cost-effective and efficient.

Phase II deliverables for 2018 are nearing completion resulting in:

- a number of operational enhancements for payroll and benefits administration to eliminate routine activities and/or streamline processes;
- new talent management tools to support recruiting, training and performance management processes;
- a complete redesign of the core foundational system elements resulting in a more accurate, sustainable and scalable data model;

- newly upgraded H.R.M.S. application platform and infrastructure compliant with latest technologies, and introducing a responsive user interface; and
- a roll-out of a new integrated H.R.M.S. data mart to support service-wide workforce analytics.

Current state assessment for Phase III, Time and Labour implementation, was also completed over 2018.

From the available funding of \$2.8M, \$1.1M will be carried forward to 2019, resulting in a total of \$2.8M available funds for 2019.

*Future Planned Activities:*

The 2019 plan will include additional scope items for Phase II to further optimize payroll, benefits and finance processes and reporting capabilities.

As well, Phase III planning process will continue throughout 2019 resulting in a detailed project charter and work plan for this implementation.

The status of this project remains At Risk, as resourcing constraints and unplanned activities continue to have an ongoing impact on the schedule.

**Enterprise Business Intelligence (E.B.I.)**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date		
Enterprise Business Intelligence	3,261.0	1,094.0	4,355.0	3,967.6	387.4	387.4	10,216.0	9,029.2	Delayed	Off Track

*Project Description:*

The E.B.I. system solution represents a set of methodologies, processes, architectures and technologies that transform raw data into consistent, reliable and useful information used to enable effective strategic, tactical and operational insights and analysis, as well as decision-support information.

*Work to Date:*

The contract for this initiative was awarded to I.B.M., based on a fixed price contract, and the project was formally started in December 2016. The team has been working very closely with I.B.M. towards the design, development and testing of the deliverables. However, the project has experienced delays related to scope items such as the data models to be delivered, reports development and number of data sources. Options have been reviewed and evaluated by the Command/ Project Sponsors and a plan has been developed to successfully deliver the project with the original scope and deliverables.

I.B.M. delivered and implemented technology for this project, provided training and conducted development activities which has been transferred to the Service for subsequent deployment in its environments. Although I.B.M. did not complete all the in-scope E.B.I. project deliverables, an updated plan is underway by Service members to continue to develop and implement data visualization and reporting for the Service.

*Future Planned Activities:*

The project's health is Off Track and being moved to On Track as the new plan is implemented in 2019. Internal members and professional services will deliver crime, resource and call for service analytics through dashboards and mapping tools from mid-2019 to mid-2020. This is final phase of the project and will concurrently transition to a permanent support team of five (5) internal resources, the processes for whom hiring will begin immediately.

**Connected/Mobile Officer Initial Phase**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date		
Connected Officer	1,717.3	0.0	1,717.3	1,265.7	451.6	0.0	24,200.0	2,180.8	On Time	At Risk

*Project Description:*

The *Way Forward* report recommended that the Service make investments to enable officers to work with smart devices. This includes a full application suite and e-notebook, as well as updating existing applications to a mobile environment which allows officers to be connected at all times to the most current operational information.

As we move forward and modernize, the Service will be strategically placing officers throughout neighbourhoods to serve the growing demands of the city. The mobile technology will allow us to move beyond the facility footprint of past models. Technologically connected officers can access the information they require from anywhere. With functions that will ultimately allow officers to file reports, make calls, correspond via email, and access databases, there will be a reduced reliance on the use of workstations at police stations and in vehicles, and increased time spent in communities.

*Work to date:*

The initial phase of the project included a proof of concept (P.O.C.) and the acquisition of 700 devices in 2018. Funding of \$2.6M for this phase was provided from the Ministry of Community Safety and Correctional Service's Police Effectiveness and Modernization (P.E.M.) grant for the period of April 1, 2017 to March 31, 2018 of which \$2.1M was utilized and \$0.5M was returned to the Ministry. The 2017-2026 gross and net capital program was adjusted with no impact on debt funding to account for this cost.

Activities in 2018 included continuing to deploy the acquired devices and further evolving and maturing the mobile officer model and its associated technological infrastructure, processes and applications.

*Future Planned Activities:*

In 2019, the Connected Officer team will stabilize the program, enhance functionalities and evaluate the current device deployment. Based on the 2019 evaluation results, expansion of the Connected Officer program will be considered as part of the 2020 budget cycle.

The overall health status of this project is at risk as the Service has not yet included the full cost into the Service’s capital program.

**Body Worn Cameras (B.W.C.) Initial Phase**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date		
Body Worn Camera - Initial Phase	487.4	0.0	487.4	19.4	468.0	0.0	500.0	32.0	On time	At Risk

*Project Description:*

This project involves exploring the benefits, challenges, and issues surrounding the use of body worn cameras, in keeping with the Service’s commitment to maintain public trust and provide professional and unbiased policing.

*Work to Date:*

The Service started a 12-month pilot project that was conducted between February 2015 and March 2016, to explore the benefits, challenges, and issues surrounding the use of body worn cameras. A report and presentation was received at the Board’s September 2016 meeting, concluding that B.W.C.s was strongly supported by the community as well as our officers. However, at that time, the cost to implement and operate a B.W.C. program was significant (Min. No. P228/16 refers).

Technology has matured, such as the use of cloud storage, and is now being explored as a potentially more cost effective body worn camera solution. As this is a large and complex solution to procure, it is important that a well-crafted procurement and legal strategy is in place that ensures the Service’s and the Board’s interests are protected, both short and long-term. A fairness commissioner and specialized procurement experts have been engaged to provide advice and guidance on the process, and ensure the process is fair and open.

A Request for Information (R.F.I.) was released on June 6, 2018, and has since closed, with vendor presentations completed at the end of September 2018. The project team

has been reviewing and compiling the information received from the vendors through the R.F.I. process.

From the available funding of \$487K in 2018, \$468K will be returned to the City under the City's one-year carry forward rule. The Board approved a request of \$1M funding to continue with the Body Worn project in 2019.

*Future Activities:*

User requirements and detailed documentation will be created. Based on the result of the R.F.I. and approved user requirements, a non-binding Request for Proposal (R.F.P.) is scheduled to be issued in the second quarter of 2019.

In parallel, the project team will be engaging with the necessary stakeholders such as City Legal and internal and external partners.

Implementing a B.W.C. program within the Service will involve significant costs such as camera and infrastructure purchase and replacement, transcription image storage management, including retrieval, administration, etc.

The overall health status of this project is at risk as the Service has not yet included the full cost into the Service's capital program until the solution and costs are better understood.

**Vehicle and Equipment Lifecycle Replacements**

Project Name	Carry Forward from 2017	2018 Cash Flow			YE Variance (Over)/ Under	Carry Forward to 2019	Total Project Cost		Status	Overall Project Health
		Budget	Available to Spend	Year End Actuals			Budget	Life to Date

IT- Related Replacements	4,373.5	12,569.0	16,942.5	15,627.0	1,315.6	1,127.8	On-going	On-going	On-going	On Track
Other Equipment	4,999.0	2,362.0	7,361.0	1,642.2	5,718.8	5,137.5	On-going	On-going	On-going	On Track
<b>Total Lifecycle Projects</b>	<b>10,673.1</b>	<b>21,060.0</b>	<b>31,733.1</b>	<b>24,419.5</b>	<b>7,313.7</b>	<b>6,544.5</b>				

*Project Description:*

Projects listed in this category are funded from the Vehicle and Equipment Reserve (Reserve), which is in turn funded through annual contributions from the Service and Parking Enforcement operating budgets. The Reserve has no impact on the capital program and at this time as it does not require debt funding. Items funded through this reserve include the regular replacement of vehicles and information technology equipment, based on the deemed lifecycle for the various vehicles and equipment.

It is important to note that as the Service modernizes, new systems that have been implemented over the years (e.g. In-Car Camera program, data and analytics initiatives)

and increasing storage requirements (e.g. to accommodate video), have put significant pressure on this Reserve, as the amount of equipment with maintenance and replacement requirements continues to increase year over year.

In addition, the discontinuation of production of the Ford Taurus patrol vehicle and the move to a sport utility vehicle, which is more costly, has added further pressure on this Reserve.

*Work to Date:*

The 2018 under-expenditure is \$7.3M, of which \$6.5M will be carried forward to 2019 as these funds are still required to complete lifecycle projects.

Significant variances are:

- \$1.9M – Furniture Lifecycle Replacement – The new vendor of record for furniture supply and installation was secured in the first quarter of 2018. However, there were some delays in establishing furniture standards that would be suitable for application Service-wide.
- \$1.3M – Wireless Parking System – carry forward required to fix any system deficiencies and further system optimization to meet City and Service requirements.
- \$0.8M – Workstation, Laptop, Printer Lifecycle – Windows 10 project continues into 2019.
- \$0.7M – Electronic Surveillance - Plans are dependent on our partner agencies. Discussions are underway.
- \$0.5M – Livescan Machines - Delayed lifecycle purchase of livescan machines as they must be R.C.M.P. compliant and compatible with our new Automated Fingerprint Identification System that will be purchased in 2019.

*Future Planned Activities:*

Various lifecycle projects such as vehicles, workstations, furniture and locker, mobile workstation replacement projects will continue their regular lifecycle in 2019 and beyond. While the Service has taken steps to create efficiencies, the amount of equipment that must be replaced continues to increase. Consequently, even with increased planned contributions, current planned spending would leave the Vehicle and Equipment Reserve in an overdrawn position in 2020. The Service will continue to review all projects' planned expenditures to address the future pressures, including additional contributions that may be required.

**Closure of Capital Projects Completed in 2018:**

Projects are declared complete when all deliverables have been met. Projects are declared closed when all outstanding payments have been made, any deficiencies have been addressed, and a closeout report has been submitted to the Board. At that time, the Service blocks any further spending for these projects on its financial system, and advises the City that the project is complete and should be closed.

The Parking Handheld Administrative Penalty System (A.P.S.) project was completed in 2018. It is anticipated that this project will be formally closed in 2019 after deficiencies have been addressed. A close out report, as required under the Service's project management framework, will be provided to the Board at that time.

**Conclusion:**

As of December 31, 2018, on a gross level, the Service incurred total expenditures of \$56M compared to \$76.2M in available funding for a spending rate of 73%. This resulted in an under-expenditure of \$20.3M, \$18.6M of which will be carried forward to 2019. The remaining balance of \$1.7M was returned to the Province, City or to the Vehicle and Equipment Reserve.

Projects will continue to be monitored on an ongoing basis and the Board will be kept apprised of any major issues as projects progress.

Mr. Tony Veneziano, Chief Administrative Officer, will be in attendance to answer any questions the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police

## Toronto Police Services Board Report

---

March 25, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Operating Budget Variance for the Toronto Police Service,  
Year Ending December 31, 2018**

### **Recommendation:**

It is recommended that the Toronto Police Services Board (Board) forward a copy of this report to the City of Toronto's (City) Chief Financial Officer for information and inclusion in the overall variance report to the City's Budget Committee.

### **Financial Implications:**

At its February 12, 2018 meeting, Toronto City Council approved the Service's 2018 operating budget at \$996.3 Million (M), a 0% increase over the restated 2017 operating budget.

In August of 2018, City staff allocated a transfer from the approved provision for Bill148 impacts resulting from the adoption of item EX29.27 "*Budget Impacts of New Minimum Wage Policy*", from Non-Program Expenditure account to the Service for \$0.127M gross and net. The Service's operating budget was subsequently adjusted to \$996.5M.

The Service achieved a 2018 favourable year end operating budget variance of \$0.6M. This surplus is less than 0.1% of the approved net operating budget, and will be returned to the City.

### **Background / Purpose:**

The purpose of this report is to provide the Board with the Service's final year-end operating budget variance.

### **Discussion:**

The following chart summarizes the Service's final year end favourable variance by expenditure and revenue category.

Details regarding these categories are discussed in the section that follows.

<b>Category</b>	<b>2018 Budget (\$Ms)</b>	<b>Year-End Actual (\$Ms)</b>	<b>Fav / (Unfav) (\$Ms)</b>
Salaries	\$749.6	\$738.0	\$11.6
Premium Pay	\$44.0	\$68.5	(\$24.5)
Benefits	\$208.0	\$201.4	\$6.6
Non Salary	\$99.6	\$92.0	\$7.6
Contributions to / (Draws from) Reserves	\$23.9	\$28.9	(\$5.0)
Revenue	(\$128.6)	(\$132.9)	\$4.3
<b>Total Net</b>	<b>\$996.5</b>	<b>\$995.9</b>	<b>\$0.6</b>

*Salaries:*

Salaries were underspent by \$11.6M.

<b>Expenditure Category</b>	<b>2018 Budget (\$Ms)</b>	<b>Year-End Actual (\$Ms)</b>	<b>Fav / (Unfav) (\$Ms)</b>
Uniform	\$565.5	\$558.8	\$6.7
Civilian	\$184.1	\$179.2	\$4.9
<b>Total Salaries</b>	<b>\$749.6</b>	<b>\$738.0</b>	<b>\$11.6</b>

*Uniform Officers* - The 2018 approved budget included funding for 60 uniform hires and assumed that there would be 160 uniform officer separations during the year. The Service experienced significantly higher than planned resignations and retirements, with 295 separations occurring during the year. This resulted in favourable variance of \$6.7M. Approximately 20% of the separations resulted from members who resigned to join other police services – this rate has been consistent over the last few years. In addition, as a result of higher than anticipated separations at the end of 2017 (232 actual for the year versus budgeted of 215), uniform staffing levels at year-end 2017 were lower than assumed at the time the 2018 budget was prepared. The lower than anticipated staffing results in an annualized salary savings of \$2.2M in 2018.

As a result of the increased separations, it was necessary to increase and accelerate hiring to maintain staffing at adequate levels. The Service therefore hired 232 uniform officers during 2018, including hiring experienced officers from other services, as compared to the budgeted 60 hires. This resulted in \$2.2M of increased salary costs.

*Civilians* - Civilian separations occurred at a rate greater than planned in 2018 (133 versus budget of 90), resulting in salary savings \$2.1M.

The 2018 approved budget assumed 109 civilian hires. This funding represents replacement of the higher than anticipated civilian separations that occurred during

2017, funding to hire staff related to the People and Culture pillar transformation and 30 additional strategic hires. Due to the high number of key civilian vacancies that have accumulated as a result of the hiring moratorium, staffing these positions has taken longer than anticipated, resulting in savings of \$5.4M.

In addition to these approved strategic hires, the Board approved in-year, the following hiring requests in response to critical operational requirements or The Way Forward report:

- an increase of 53 positions to the Communication Operator establishment so that this critical unit can achieve required response standards (Min. No. P65/18 refers);
- 40 new Special Constable positions to support the civilianization of specific functions currently performed by uniform officers, allowing uniform officers to focus on core policing duties (Min. No. P26/18 refers). In 2018, 14 Special Constables were hired, with the remainder hired at the beginning of 2019; and
- the resumption of the hiring of Court Officers as a result of high workload demands and vacancies.

None of these initiatives were included in the 2018 operating budget, as full details were not known at the time the budget was developed and approved.

The cost of these aforementioned initiatives is \$2.6M in 2018. Once fully hired, the annualized impact is \$13.5M, and this impact is included in the 2019 budget.

*Premium Pay:*

Premium pay was overspent by \$24.5M, summarized as follows:

<b>Expenditure Category</b>	<b>2018 Budget (\$Ms)</b>	<b>Year-End Actual (\$Ms)</b>	<b>Fav / (Unfav) (\$Ms)</b>
Uniform	\$39.0	\$59.8	(\$20.8)
Civilian	\$5.0	\$8.7	(\$3.7)
<b>Total Premium Pay</b>	<b>\$44.0</b>	<b>\$68.5</b>	<b>(\$24.5)</b>

The 2018 operating budget did not include any increases to the uniform premium pay budget in an effort to achieve a 0% increase over the 2017 operating budget.

Uniform premium pay was overspent by \$20.8M. A portion of this pressure (\$0.7M) is offset by increased recoveries from the City for attendance at Provincial Offences Act courts. The remaining pressure was mainly a result of reduced staffing levels and high profile/extraordinary cases and events. This spending also includes \$2.7M in expenditures for increased overtime required for Summer Safety/Gun Violence Reduction Plan and subsequent Fall Maintenance Plan. In addition, there has been a significant reduction in the ability for members to utilize their lieu banks by taking days

off. Approximately \$4.5M of the over expenditure was attributed to members inability to take time off and therefore paid out in cash instead.

Additional premium pay is also incurred as units address critical workload issues resulting from a significant number of civilian staff vacancies across the Service. Civilian overtime and call-backs are authorized when required to ensure deadlines are met; key service levels maintained; and tasks completed in order to ensure risks are mitigated and additional hard dollar costs are avoided. Civilian premium pay was overspent by \$3.7M.

The higher than budgeted premium pay expenditures have been largely offset by savings in uniform and civilian salaries and benefits.

*Benefits:*

Benefits were underspent by \$6.6M.

<b>Expenditure Category</b>	<b>2018 Budget (\$Ms)</b>	<b>Year-End Actual (\$Ms)</b>	<b>Fav / (Unfav) (\$Ms)</b>
Medical / Dental	\$45.3	\$37.8	\$7.5
O.M.E.R.S. / C.P.P. / E.I. / E.H.T.	\$128.2	\$125.8	\$2.4
Sick Pay Gratuity /C.S.B./L.T.D.	\$18.5	\$21.5	(\$3.0)
Other (e.g., W.S.I.B., life insurance)	\$16.0	\$16.3	(\$0.3)
<b>Total Benefits</b>	<b>\$208.0</b>	<b>\$201.4</b>	<b>\$6.6</b>

Medical and dental spending is impacted by many factors such as staffing levels, age of staff, age of family dependents, evolving legislation, changes in drug costs and changes in dental fee schedules. Medical and dental expenditures were \$7.5M favourable. A portion of this favourable variance is a result of liability reversals for denied medical claims that were set up in 2017 and no longer required, as well as the fact that changes to O.H.I.P. coverage for Ontarians under the age of 25 did not negatively impact the Service in 2018. The unfavourable variance in Sick Pay Gratuity was a result of the increased retirements. Favourable variances in the O.M.E.R.S. /C.P.P. /E.I. /E.H.T. category is a result of reduced staffing levels.

As of January 2018, W.S.I.B. allows claims for work-related Chronic Mental Stress caused by substantial work related stressors. This, along with the passing of presumptive legislation for P.T.S.D. for first responders in 2016, has increased W.S.I.B. costs incurred by the Service. W.S.I.B. costs were \$6.7M in 2016 and increased to \$8.7M in 2018, a 29% increase. The Service has recently filled the Manager of Wellness position and part of their mandate will be to proactively and more effectively manage our approach to these costs.

*Non Salary:*

Non salary expenditures were underspent by \$7.6M.

	<b>2018 Budget (\$Ms)</b>	<b>Year-End Actual (\$Ms)</b>	<b>Fav / (Unfav) (\$Ms)</b>
<b>Non Salary</b>			
Vehicles (gas, parts)	\$11.2	\$11.0	\$0.2
Computer / Systems Maintenance	\$18.4	\$18.0	\$0.4
Caretaking / Maintenance Utilities	\$20.0	\$18.3	\$1.7
Other	\$50.0	\$44.7	\$5.3
<b>Total Non Salary</b>	<b>\$99.6</b>	<b>\$92.0</b>	<b>\$7.6</b>

Service consumption for gasoline has been lower than estimated, but gas prices have been greater than budgeted and have partially offset savings from the lower consumption.

The favourable variance in Caretaking / Maintenance Utilities was mainly a result of lower utilities costs largely resulting from the installation of LED lighting at Headquarters by the Service. The favourable variance in other non salary expenditures is a result of the Service reducing expenditures wherever possible in order to come in on budget overall.

*Contributions to / (Draws from) Reserves:*

The final variance in this category is \$5.0M unfavourable.

<b>Reserves Category</b>	<b>2018 Budget (\$Ms)</b>	<b>Year-End Actual (\$Ms)</b>	<b>Fav / (Unfav) (\$Ms)</b>
<b>Contribution to Reserves:</b>			
Collective Agreement Mandated	\$15.7	\$15.7	\$0.0
Legal	\$1.7	\$1.7	\$0.0
Insurance	\$10.9	\$10.9	\$0.0
Vehicle & Equipment	\$19.3	\$19.3	\$0.0
<b>Contribution to Reserves</b>	<b>\$47.6</b>	<b>\$47.6</b>	<b>\$0.0</b>
<b>Draws from Reserves:</b>			
Collective Agreement Mandated	(\$19.4)	(\$18.2)	(\$1.2)
Legal	(\$3.2)	\$0.0	(\$3.2)
Modernization	(\$1.1)	(\$0.5)	(\$0.6)
<b>Draws from Reserves</b>	<b>(\$23.7)</b>	<b>(\$18.7)</b>	<b>(\$5.0)</b>
<b>Contributions to / (Draws from) Reserves</b>	<b>\$23.9</b>	<b>\$28.9</b>	<b>(\$5.0)</b>

As part of the annual operating budget process, the Board and Council approve contributions to and expenditures from reserves. The various reserves are established to provide funding for anticipated expenditures to be incurred by the Service, and to avoid large swings in costs from year to year. The Service contributes to and/or draws from the Legal, Vehicle and Equipment and City Insurance reserves, as well as the City Sick Pay Gratuity, Central Sick and Post-Retirement Health reserves, which are collective agreement driven.

The adequacy of reserves is reviewed annually, based on the Service’s estimated spending and asset replacement strategies. Contributions are made and expensed to the operating budget accordingly.

In 2018, the Service made all required contributions to its reserves. However, the \$5.0M unfavourable variance was a result of not fully drawing from the reserve funding sources, taking into account the need to balance funding for the current year with the need to help sustain the future health of the reserves. Outlined below, are the actions taken regarding the Post-Retirement Health, Legal and Modernization reserves.

The cost of the Post-Retirement Health Reserve benefit is projected to increase significantly in the coming years. As a result, the Service did not make any draws from this reserve during 2018, resulting in an unfavourable revenue variance of \$1.2M. This allows the Service to continue to enhance the adequacy of funds in this reserve.

In order to limit the 2019 Service-wide budget increase, the 2019 budget contribution to the Legal reserve was reduced. As legal costs can vary significantly from year to year, the Service did not make any of the \$2.7M in eligible draws from the Legal reserve during 2018, thereby maintaining an adequate balance going into 2019.

The Modernization reserve was established in 2017 to provide a source of funding to help enable modernization and transformation initiatives so that the Service can achieve a more effective, efficient and value added police service. In Council’s approval of this reserve, the purpose statement allowed contributions to be made only through any year-end surplus funds of the Service. As modernization initiatives are expected to be ongoing, the Service withdrew \$0.5M of the eligible \$1.1M in order keep sufficient funding in 2019.

*Revenue:*

Revenues were \$4.3M favourable.

<b>Revenue Category</b>	<b>2018 Budget (\$Ms)</b>	<b>Year-End Actual (\$Ms)</b>	<b>Fav / (Unfav) (\$Ms)</b>
Government grants	(\$62.6)	(\$63.4)	\$0.8
Fees and Recoveries (e.g., paid duty, secondments, vulnerable sector checks)	(\$32.8)	(\$35.2)	\$2.4
Paid Duty - Officer Portion	(\$24.7)	(\$25.3)	\$0.6

Miscellaneous Revenue	(\$8.5)	(\$9.0)	\$0.5
<b>Total Revenues</b>	<b>(\$128.6)</b>	<b>(\$132.9)</b>	<b>\$4.3</b>

The Service is in receipt of grant funding from several sources, the most significant of which are the Provincial Uploading of Court Security and the Policing Effectiveness and Modernization (P.E.M.) grant.

Following the Provincial election, a number of Provincial funding programs were frozen pending a line by line review by the Province. Recently, the Province announced the continuation of the court security uploading program and the Service has now received full payment for 2018 (budgeted for \$42.8M), and the Province has committed to fund the program in 2019.

The Service's 2018 operating budget assumed \$7.6M of provincial funding under P.E.M. that could be applied against existing expenditures. The Province recently announced continued funding for this program resulting in a zero variance for the Service.

The favourable variance in Fees and Recoveries is mainly a result of recoveries for the paid duty administrative fee and checks for vulnerable sector screening being greater than budgeted. This favourable variance is partially offset by reduced fees due to the new verification process for attendance at burglar alarm activations. Effective September 10, 2018 alarm verification will be required before officers are dispatched. Verified alarm activations and panic alarm activations will still be treated as high priority calls for service and will be dispatched to the first available police field unit. This change in policy, expected to create policing capacity for higher priority activities, will result in lost recoveries for attendance at false alarms, as the Service bills \$130 for each occurrence and number of false alarms is expected to drop. The favourable variance also includes greater than budgeted funding for secondments in collaboration with the Province and Royal Canadian Mounted Police (R.C.M.P.).

The favourable variance in miscellaneous revenues of \$0.5M is mainly a result of liability reversals. This was partially offset by reduced prisoner return recoveries. These are lower due to the increased reliance by the Province on the Toronto South Detention Centre; rather than super jails beyond the City for which the Province reimburses transportation costs.

### **Conclusion:**

The Service's year-end surplus is \$0.6M. This surplus, as well as the \$3.9M surplus from the Service's Parking Enforcement Unit, which is covered in a separate report to the Board, will be returned to the City and will be part of the City's overall 2018 surplus.

Mr. Tony Veneziano, Chief Administrative Officer, will be in attendance to answer any questions the Board may have regarding this report.

## Toronto Police Services Board Report

---

March 25, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Operating Budget Variance Report for the Toronto Police Service Parking Enforcement Unit, Year Ending December 31, 2018**

### **Recommendation:**

It is recommended that the Toronto Police Services Board (Board) forward a copy of this report to the City of Toronto's (City) Chief Financial Officer for information and inclusion in the overall variance report to the City's Budget Committee.

### **Financial Implications:**

Toronto City Council (Council), at its February 12, 2018 meeting, approved the Parking Enforcement Unit's (P.E.U.) 2018 operating budget at \$46.7 Million (M), a zero percent increase over the 2017 operating budget.

The P.E.U. achieved a 2018 year-end favourable variance of \$3.9M. This surplus represents 8.4% of the P.E.U.'s approved net operating budget, and will be returned to the City.

### **Background / Purpose:**

The P.E.U. operating budget is not part of the Toronto Police Service (Service) operating budget. While the P.E.U. is managed by the Service, the P.E.U.'s budget is maintained separately in the City's non-program budgets. In addition, revenues from the collection of parking tags issued accrue to the City, not the Service.

The purpose of this report is to provide the Board with the P.E.U.'s final year-end variance.

## Discussion:

The following chart summarizes the variance by expenditure and revenue category. Details regarding variances for both salary and non-salary related expenses are discussed in the section that follows.

Category	2018 Budget (\$Ms)	Year-End Actual Expend (\$Ms)	Fav/(Unfav) (\$Ms)
Salaries	\$30.8	\$27.7	\$3.1
Premium Pay	\$2.6	\$2.5	\$0.1
Benefits	\$7.4	\$6.9	\$0.5
<b>Total Salaries &amp; Benefits</b>	<b>\$40.8</b>	<b>\$37.1</b>	<b>\$3.7</b>
Materials & Equipment	\$1.4	\$1.2	\$0.2
Services	\$6.0	\$5.6	\$0.4
<b>Total Non-Salary</b>	<b>\$7.4</b>	<b>\$6.8</b>	<b>\$0.6</b>
Revenue (e.g. TTC, towing recoveries)	(\$1.5)	(\$1.1)	(\$0.4)
<b>Total Net</b>	<b>\$46.7</b>	<b>\$42.8</b>	<b>\$3.9</b>

### *Salaries & Benefits (including Premium Pay):*

The final favourable variance for salaries is \$3.1M due to higher than anticipated attrition and savings from delayed hiring, resulting from a hiring moratorium for the P.E.U., similar to that of the Service. The P.E.U. was not able to resume hiring until the fall. The favourable variance in benefits is also a result of reduced staffing levels.

Nearly all premium pay at the P.E.U. is related to enforcement activities, attendance at court and the backfilling of members attending court. With respect to enforcement activities, premium pay is utilized to staff special events or directed enforcement activities. All premium pay expenditures are approved by supervisory staff and carefully controlled. There is a favourable variance of \$0.1M in the premium pay category.

The salary and benefit related surpluses, totalling \$3.7M, are the primary drivers for the overall surplus and represent 95% of the overall surplus for the P.E.U.

### *Non-salary Expenditures:*

The favourable variance in both the Materials & Equipment and Services categories, totalling \$0.6M is mainly attributable to reduced maintenance costs for the handheld parking devices.

*Revenue:*

Revenues include recoveries from the Toronto Transit Commission (T.T.C.), towing recoveries and contributions from reserves.

An unfavourable variance \$0.7M was incurred in draws from reserves. This variance was a result of not drawing from the Sick Pay Gratuity and Central Sick reserves in order to help sustain the future health of the reserves.

The recoveries from the T.T.C. are for premium pay expenditures that are incurred to enforce parking by-laws on T.T.C. right of ways, which are necessitated by the continuing weekend subway closures for signal replacements maintenance. A favourable variance of \$0.2M was incurred for these recoveries and a favourable variance of \$0.1M was incurred for the towing recoveries. The T.T.C. recoveries have a net zero impact, as they are a direct reimbursement of billed premium pay expenditures. However, these favourable variances in the revenue category offset the unfavourable variance in the reserves for a net unfavourable variance of \$0.4M in the revenue category.

**Conclusion:**

The P.E.U.'s 2018 year-end surplus is \$3.9M. This amount will be returned to the City.

Mr. Tony Veneziano, Chief Administrative Officer, will be in attendance to answer any questions the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.

## Toronto Police Services Board Report

---

April 1, 2019

To: Chair and Members  
Toronto Police Services Board

From: Andy Pringle  
Chair

**Subject: Operating Budget Variance Report for the Toronto Police Services Board, Year Ending December 31, 2018**

### **Recommendations:**

It is recommended that:

1. the Toronto Police Services Board (Board) receive this report; and
2. the Board forward a copy of this report to the City of Toronto's (City) Chief Financial Officer for information and for inclusion in the variance reporting to the City's Budget Committee.

### **Financial Implications:**

The Board's year-end variance is \$49.0K favourable.

### **Background / Purpose:**

The Board, at its October 26, 2017 meeting, approved the Toronto Police Services Board's 2018 operating budget at a net amount of \$2,309,100 (Min. No. P227/17 refers), a zero increase over the 2017 operating budget. Subsequently, Toronto City Council, at its February 12, 2018 meeting, approved the Board's 2018 operating budget at the same amount.

The purpose of this report is to provide information on the Board's 2018 year-end variance.

### **Discussion:**

The final 2018 year-end variance is a surplus of \$49,000.

The following chart summarizes the variance by category of expenditure, details are discussed below.

<b>Expenditure Category</b>	<b>2018 Budget (\$000s)</b>	<b>Year-End Actual Expend (\$Ms)</b>	<b>Fav/(Unfav) (\$000s)</b>
Salaries & Benefits	\$1,037.2	\$1,000.9	\$36.3
Non-Salary Expenditures	\$1,271.9	\$1,259.2	\$12.7
<b>Total</b>	<b>\$2,309.1</b>	<b>\$2,260.1</b>	<b>\$49.0</b>

### **Salaries & Benefits**

The favourable variance was due to staff turnover during the year.

### **Non-salary Budget**

The majority of the costs in this category are for arbitrations/grievances and City chargebacks for legal services. Minor favourable variances were due to less than budgeted chargebacks from the City.

The Board cannot predict or control the number of grievances filed or referred to arbitration as filings are at the discretion of bargaining units. In order to deal with this uncertainty, the 2018 budget includes a \$529,000 contribution to a Reserve for costs of independent legal advice. Fluctuations in legal spending will be dealt with by increasing or decreasing the budgeted reserve contribution in future years' operating budgets so that the Board has funds available in the Reserve for these variable expenditures.

### **Missing Persons Investigations Review**

The Board, at its June 21, 2018 meeting, approved the Missing Persons Investigation Review Working Group – Review's Terms of Reference and Budget Report (Min. No. P112/18 refers). The Board approved terms of reference for an independent review of the policies, practices and actions of the Board and the Toronto Police Service in relation to missing person reports and investigations. The Board also approved a request to the City of Toronto's Executive Committee to allocate and transfer to the Board funding for the review in an amount not to exceed \$3.0M and that such funds be made available to the Board beginning in 2018 and until the conclusion of the Review. Subsequently, Toronto City Council, at its July 23, 2018 meeting, approved up to \$3.0M for the Missing Persons Investigations Review, including an increase to the 2018 operating budget of the Board by \$0.6M on a onetime basis from funded from the Tax Rate Stabilization Reserve for the 2018 costs, and that the Board consult further with the Chief Financial Officer concerning future budget provisions for the balance of the review in 2019 and 2020 as part of the annual budget process. The Board will only draw on the reserve to the extent needed to fund the expenditure associated with the review. For 2018, the expenditure and offsetting reserve draw was \$260,400.

The \$0.6M is in addition to the \$25,000 requested by the Board at its April meeting (Min. No. P66/18 refers) and subsequently approved by Toronto City Council at its June 26, 2018 meeting, required to facilitate the working group towards an independent review with respect to Toronto Police Service missing person investigations.

**Conclusion:**

The 2018 year-end favourable variance for the Board is \$49,000.

April 11, 2019

To: Members  
Toronto Police Services Board

From: Andy Pringle  
Chair

**Subject: City of Toronto Council – 2019 Capital and Operating Budgets**

### **Recommendation(s):**

It is recommended that the Board forward this report to the Chief of Police for future preparation of reports to the Board which are responsive to City Council's decisions 146, 147 and 274.

### **Financial Implications:**

City Council, at its meeting held on March 7, 2019, approved the Toronto Police Service's 2019 Operating Budget Request, the Toronto Police Service's 2019-2028 Capital Program Request an Operating Budget Request for the Parking Enforcement Unit and, an Operating Budget Request for the Toronto Police Services Board.

### **Background/Purpose:**

The entire report detailing the City's consideration of the budgets is available at this link: <http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2019.EX2.5>

### **Discussion:**

In considering the Service's Operating budget, Council adopted, among other recommendations, the following:

**146. City Council request the Chair, Toronto Police Services Board to report to the Budget Committee and provide a status update on the receipt of any grants as well as any changes to the grant values through the 2019 quarterly variance reporting process.**

**147. City Council request the Chair, Toronto Police Services Board to direct the Toronto Police Service to work with City staff on establishing its Program map, service-based budgets, and associated service levels and performance measures during 2019 for the 2020 Budget Process.**

In considering the Service's Capital Program request, Council adopted the following recommendation:

**274. City Council request the Chair, Toronto Police Services Board to report any operating costs and associated benefits arising from the implementation of facility realignment and transformation information technology projects in the 2020 Budget Process.**

**Conclusion:**

It is, therefore, recommended that the Board forward this report to the Chief of Police for future preparation of reports to the Board which are responsive to City Council's decisions 146, 147 and 274.

22. City Council approve the 2019 Budget Committee Recommended Operating Budget for Parks, Forestry and Recreation of \$476.545 million gross, \$324.955 million net, as amended by Part 21 above, for the following services:

Service:	Gross (\$000s)	Net (\$000s)
Community Recreation	239,579.4	159,090.6
Parks	159,865.3	125,043.3
Urban Forestry	77,100.4	40,821.1
Total Program Budget	476,545.1	324,955.0

23. ## Toronto Police Services Board Report

---

April 1, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: 2018 ANNUAL HATE CRIME STATISTICAL REPORT**

### **Recommendation:**

It is recommended that the Board:

- 1) receive this report for information; and,
- 2) forward a copy of this report to the City of Toronto Executive Committee for information.

### **Financial Implications:**

There are no financial implications relating to the recommendations contained within this report.

### **Background / Purpose:**

The Toronto Police Service (Service) Hate Crime Unit (H.C.U.) is a sub-unit of Intelligence Services, Security Section. The H.C.U. has collected statistical data and has been responsible for ensuring the thorough investigation of hate crime offences within the City of Toronto since 1993.

The Service's Hate Crime Statistical Report is an annual report that provides statistical data about criminal offences that are committed against a person or property that are motivated by bias, prejudice, or hate, based on the victim's (either perceived or real) race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation or other similar factor within the City of Toronto.

This report also provides an overview of the hate crimes committed in 2018, as well as the various education, training and community outreach initiatives that were undertaken by the H.C.U. and other units within the Service.

## **Discussion:**

The year 2018 was characterized by strengthened community partnerships and engagement, education and a commitment to encouraging public reporting of hate crimes.

In 2018, there was a decrease in the total number of reported hate crimes to the Service. In comparison to 2017, the number of reported occurrences decreased from 186 to 137, representing a difference of approximately 26%.

The fluctuation in the number of reported hate crimes and the community groups that are victimized can be attributed to multiple factors including international events, community educational programs, and hate crime training.

Mischief to property, assault, and utter threats were the three most reported criminal offences motivated by hate in 2018. As in past years, these kinds of offences occurred in a variety of different locations including private dwellings, public park/streets, schools and on public transportation.

The H.C.U. recognizes that under reporting continues to present a challenge that affects the unit's ability to investigate and prevent hate motivated offences in various communities.

Throughout 2018, members of the H.C.U. attended and/or provided internal, local and provincial hate crime training on topics relating to hate crime laws and trends, investigative strategies, prosecution of hate crimes, and the community of impact of hate crimes. The attendees included members of the Service and other local and national police services, government and nongovernment partners, as well as community members. Details of community outreach and education initiatives are included in the report under section XII.I Hate Crime Unit Education and Community Outreach Initiatives.

Additionally, the H.C.U. collaborates with the Service's Community Policing Engagement Unit (C.P.E.U.) and community organizations for the purposes of education, public safety, and to address community concerns specific to hate crimes. In 2018, the C.P.E.U. in partnership with community partners and agencies updated and created crime prevention pamphlets, including a pamphlet titled "HATE MOTIVATED CRIME: WHAT YOU NEED TO KNOW ABOUT HATE CRIME". These pamphlets were distributed to our divisional units and are available to the public. In 2019, these pamphlets will be electronically accessible via the Service's website.

## **Conclusion:**

This report provides the Board with a comprehensive statistical overview of the hate crimes reported and investigated in the City of Toronto throughout 2018.

Deputy Chief James Ramer, Specialized Operations Command, will be in attendance to answer any questions that the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police

## Executive Summary

The Toronto Police Service Hate Crime Statistical Report is an annual report that provides statistical data about criminal offences that are committed against persons or property which are motivated by bias, prejudice or hate based on the victim's race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation or other similar factor within the City of Toronto.

The report explains the mandate of the Toronto Police Service Hate Crime Unit (HCU) and the methodology that is used by the HCU to collect the statistical data. The data is based on hate crimes that were reported to the Toronto Police Service, hereafter referred to as "the Service" between January 1, 2018 and December 31, 2018.

The report also provides an overview of the training and education that was provided to the Service's police officers with respect to hate crimes in 2018, as well as the various community outreach initiatives that were undertaken by the HCU and other units within the Service.

In 2018, there was a decrease in the total number of hate crime occurrences reported to the Service. In comparison to 2017, the number of reported occurrences decreased from 186 to 137 representing a difference of approximately 26%. Over the past ten years, between 2009 and 2018, the average number of reported hate crimes is approximately 148 per annum.

The number of arrests related to hate crimes in 2018 decreased from 23 persons arrested in 2017 to 18 persons arrested in 2018. As in previous years, the number of arrests for hate motivated offences was attributed to allegations of mischief to property (i.e. graffiti) in circumstances where there was little or no suspect description available. These occurrences frequently transpired without the victim or any witnesses present. These factors present significant challenges to the investigation into hate motivated offences and arresting suspects.

In 2018, the Jewish community, followed by the Muslim community, the Black community, and the LGBTQ community were the groups most frequently victimized. The three most frequently reported criminal offences motivated by hate in 2018 were mischief to property, assault and utter threats. The Jewish community was the most frequently victimized group for mischief to property occurrences and utter threat occurrences. The Muslim community was the most frequently victimized group for assault occurrences.

There are multiple factors that can affect fluctuation in the number of reported hate crimes and the community groups that are victimized. These factors include international events, community educational programs, hate crime training, and increased reporting.

When more than one identifiable group (i.e. Catholic and Ukrainian) was targeted in an incident the occurrence was categorized as multi-bias. In 2017, 27 of the 186 hate occurrences were categorized as multi-bias. In 2018, 21 of the 137 hate occurrences were categorized as multi-bias.

---

An identifiable group is defined by the Criminal Code as, “*Any section of the public distinguished by colour, race, religion, national or ethnic origin, age, sex, sexual orientation, gender identity or expression, or mental or physical disability*”.

In 2017, the Criminal Code definition of identifiable group was expanded to include gender identity or expression as a result of Bill C-16. Hate crimes motivated on the basis of gender identity or expression are captured by the Service under the sex category.

In 2014, the Canadian Center for Justice Statistics (CCJS) published the Hate Crime Consultations and Recommendation Report. One of the recommendations made in this report was for police services to report hate crimes targeting members of the Transgender community under either the sex and/or gender category for the purpose of comparability across jurisdictions.

For the purpose of uniform crime reporting across Canada, the Service adopted the CCJS recommendation. Hate crimes targeting members of the Transgender community have been categorized under the sex category since the 2014 report. Prior to 2014, the Toronto Police Service Annual Hate Crime Statistical Report categorized hate crimes against members of the Transgender community under the sexual orientation category.

Since the publication of the first Hate Crime Statistical Report in 1993, hate crimes have been most commonly motivated by the following five factors: race, religion, sexual orientation, multi-bias, and nationality.

## I. Introduction

The Toronto Police Service (the Service) Hate Crime Unit (HCU) is a subunit of Intelligence Services –Security Section. The HCU was established in 1993 and is responsible for collecting, analyzing and publishing data on reported hate crimes. The Unit consists of a Detective and two Detective Constables, as well as a civilian Intelligence Analyst and an Intelligence Researcher.

Additionally, the Detective Sergeant in charge of the Security Section of Intelligence Services has the discretion to assign officers from Intelligence Services to assist in the investigation and prevention of hate motivated crimes, thereby assisting the HCU, as he or she deems necessary.

In making such a determination, the Detective Sergeant considers factors such as the opportunity to raise awareness and educate members of the community regarding hate motivated crimes and the capacity of the specific division to investigate the specific occurrence(s).

### Mandate:

The mandate of the Hate Crime Unit is to:

- Provide assistance and expertise to all investigations and prosecutions of hate crimes;
- Investigate and liaise with the Ministry of the Attorney General in relation to hate propaganda cases;
- Maintain an information base of hate occurrences and arrests to assist divisional analysts and investigators;
- Assist in developing public education programs in partnership with other members of the Service and the community; and
- Act as a central focus for the dissemination of information and provide support to divisional hate crime co-ordinators, other police services, government agencies and the community.

Members of the HCU are responsible for reviewing all suspected hate occurrences to ensure consistent identification/classification and to ensure a thorough investigation is conducted. All relevant information is recorded and analyzed which aids in determining overall hate crime trends and patterns.

The analysis of occurrences and this report are then used to develop Service-wide strategies to address hate crimes in the community from a crime prevention/enforcement perspective as well as from an educational perspective.

The Toronto Police Service is in the midst of a deployment transformation whereby Divisions in certain areas of the city are amalgamating to Districts. A Hate Crime Coordinator is assigned to each of the new Districts, or if the Division has yet to be amalgamated, there remains a Divisional Hate Crime Coordinator.

---

The Hate Crime Coordinator maintains the responsibility for tracking and assisting hate crime investigations within their respective District or Division. The HCU provides investigative support to these divisional personnel and other units when requested or necessary to support the investigation and if required, arranges for expert witnesses to attend court.

The Service provides all members with Procedure 05-16 - Hate/Bias Crime. This procedure provides direction to front line officers and investigators to assist them in properly identifying, recording and investigating hate crimes. Consistent with this procedure, officers are required to notify the HCU of any hate crime occurrences.

Through training, officers are encouraged to err on the side of caution by forwarding all suspected hate motivated occurrences to the HCU for review. Additionally, the HCU utilizes internal police software to search all police records for hate motivated occurrences.

In this manner, the HCU ensures that all hate motivated occurrences and arrests are captured and reviewed for accuracy.

## II. Methodology

Toronto Police Service Procedure 05-16 - Hate/Bias Crime requires all suspected hate motivated occurrences to be reviewed by HCU investigators to ensure proper identification and classification. Every occurrence is classified using the hate categories contained within the identifiable group definition of the *Criminal Code of Canada, section 718.2*: race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation, or gender identity or expression, or any other similar factor.

The comments and/or actions of a suspect during an incident can be a significant determination regarding his or her motive and bias; however, it is sometimes difficult to classify an occurrence with complete accuracy. Additional criteria considered when classifying occurrences may include the victim's perception of the incident, culturally significant dates, symbols, history of the community and current world events.

In some cases, the suspect misperceives the victim's background. This has occurred in some incidents involving visible minorities, where the suspect can be completely unaware of the victim's actual background and incorrectly assumes the victim belongs to a particular group. Due to this fact, the victim becomes a target based on the suspect's misperception.

For example, there have been cases where individuals have been wrongly perceived by the suspect as being members of the **LGBTQ** community and become victims of hate motivated assaults. Similarly, in other cases, victims have been targeted due to their association with members of certain identifiable groups, though the victims themselves are not members of those groups.

While it is recognized that every individual has multiple aspects to their identity, more than one of which could be cause for an offender to target them, it is the practice of the HCU to classify a hate occurrence based on the best known information that exists relevant to the offender's perception of the victim.

In cases where there are multiple criminal offences committed during one event, only the charges directly related to the hate occurrence are included for the purpose of data collection in this report. For example, if an occurrence involved an allegation of a suspect assaulting a person based on the person's religion and upon his arrest, the suspect was found to be in possession of a controlled substance – only the assault charge would be categorized as a hate motivated charge, not the drug-related charge.

### Limitations

The HCU recognizes that in evaluating this report, the information contained herein is an analysis of reported hate motivated crime within the City of Toronto and may not be a true reflection of the prevalence of hate crimes occurring in Toronto.

Under-reporting continues to present a challenge that affects the HCU's ability to investigate and prevent hate motivated offences in various communities. As a result, the HCU continues to recognize that working with community groups and media outlets to encourage and assist victims to report these crimes is an essential aspect of its mandate. The HCU continues to meet and consult with a variety of established community organizations involved in anti-hate advocacy and is continuously reaching out to new groups.

The number of hate crimes recorded varies from year to year and is influenced by a wide range of factors that are not always easily discernible. As previously mentioned, the reluctance to report victimization significantly impacts statistical data and the interpretations extrapolated and concluded from that data. Victims may be reluctant to report hate crimes for several reasons, including, but not limited to:

- The victim may not recognize that the crime was motivated by bias or hate;
- Fear of retaliation;
- Uncertainty of the criminal justice system's response;
- The victim may fear his/her sexual orientation may be exposed to family members or his/her employer; and/or
- Embarrassment and humiliation of being victimized.

### Community Impact

Hate crimes have a disproportionately greater effect on their victims than other types of crimes. Hate motivated crimes have longer lasting serious side-effects for society as a whole. A hate motivated crime not only victimizes the individual, but also the entire group the person belongs to, resulting in the increased isolation, stress and vulnerability of that particular group.

If police do not respond to reports of hate crimes immediately and appropriately, these crimes can lead to increased social discord between opposing groups and possible retaliation.

Conversely, a timely and effective police response can have a positive and lasting influence on the relationship between police and the communities we serve. Positive relationships such as these have the ability to have extensive benefits in other aspects of public safety.

### Hate Category Codes

The hate category codes used throughout the tables and charts of this report are as follows: RA-race/colour, MU-multi-bias, ET-ethnicity, NA-nationality, AG-age, SEX-sex, LN-language, DI-disability, SO-sexual orientation, RE-religion and SF-similar factor.

Offences in the **race (RA)** category include people targeted because of an obvious visible characteristic, often the colour of their skin, or other physical characteristics relating to race.

Occurrences where more than one of the identifiable groups has been targeted are categorized as **multi-bias (MU)**. This occurs when a suspect's comments and/or actions are directed towards several victim groups. For example, a hate propaganda flyer that targets Muslims, Canadians and First Nations members will be categorized as multi-bias.

Hate motivated occurrences are coded as **ethnicity (ET)** to denote offences where the victims share a common cultural or national tradition or refer to victims by their birth origin rather than their present nationality.

The **nationality (NA)** category is used when a victim is targeted specifically because of his or her perceived nationality.

The **sex** category is used when a victim is targeted because of the gender that they are perceived to belong to (male, female, Trans or Transgender). **Trans** or **Transgender** is an umbrella term referring to people with diverse gender identities and expressions that differ from stereotypical gender norms. It includes but is not limited to people who identify as Transgender, Trans woman (male-to-female), Trans man (female-to-male), Transsexual, cross-dresser, gender non-conforming, gender variant or gender queer.

The categories of **age (AG)**, **language (LN)**, **disability (DI)**, **sexual orientation (SO)** and **religion (RE)** are typically clear in terms of why the victims have been targeted and therefore are often more easily categorized.

In **similar factor (SF)** occurrences, hatred can focus on members of a group who have significant points in common and share a trait that is often integral to the dignity of the person. The shared trait is common to a group not just an individual. An example of any other similar factor includes but is not limited to members of a particular profession (i.e. priests or nuns).

### Criminal Code of Canada - Hate Provisions

The definition of a hate crime is, “A *criminal offence committed against a person or property, where there is evidence that the offence was motivated by bias, prejudice, or hate, based on the victim’s race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation, or gender identity or expression, or on any other similar factor*”.

Toronto Police Service – Hate Crime Unit  
Annual Hate Crime Statistical Report  
2018

The two types of hate motivated crimes:

1. Those forms of expression that fit within the parameters of **hate propaganda** in sections 318 and 319 of the Criminal Code; and
2. All other criminal offences where there is evidence to indicate bias, prejudice or hate was a motivating factor in the commission of the offences, section 718.2 of the Criminal Code.

Hate propaganda is defined as, “*Any communication that advocates or promotes genocide or makes statements, other than in private, that promote hatred against an identifiable group*”.

An identifiable group is defined by the Criminal Code as, “*Any section of the public distinguished by colour, race, religion, national or ethnic origin, age, sex, sexual orientation, gender identity or expression, or mental or physical disability*”.

The criteria of national origin, sex, age, and mental or physical disability were added to the definition of “identifiable group” in 2014, and gender identity or gender expression were added in 2017 as a result of Bill C-16 receiving Royal Assent.

The consent of the Attorney General is required for hate propaganda prosecutions.

In 2001, under the *Anti-Terrorism Act*, a new provision was added to the Criminal Code of Canada, Section 430(4.1), which allows the courts to impose more severe penalties for the criminal offence of mischief to religious property. Section 430(4.1) of the Criminal Code states:

*“Everyone who commits mischief in relation to property that is a building, structure or part thereof that is primarily used for religious worship, including a church, mosque, synagogue or temple, or an object associated with religious worship located in or on the grounds of such a building or structure, or a cemetery, if the commission of the mischief is motivated by bias, prejudice, or hate based on religion, race, colour or national or ethnic origin,*

*(a) is guilty of an indictable offence and liable to imprisonment for a term not exceeding ten years; or*

*(b) is guilty of an offence punishable on summary conviction and liable to imprisonment for a term not exceeding eighteen months.”*

**III. Results**

Reported Hate Crime Occurrences

In 2018, there was a decrease in the number of reported hate crimes compared to 2017. The HCU recorded a total of 137 hate motivated occurrences in 2018 compared to 186 in 2017. These figures represent a decrease of approximately 26%. Overall, the number of occurrences in 2018 is lower than the ten year average of 148 occurrences (Figure 3.1).

**Figure 3.1: Hate Crime Occurrences 2009-2018**

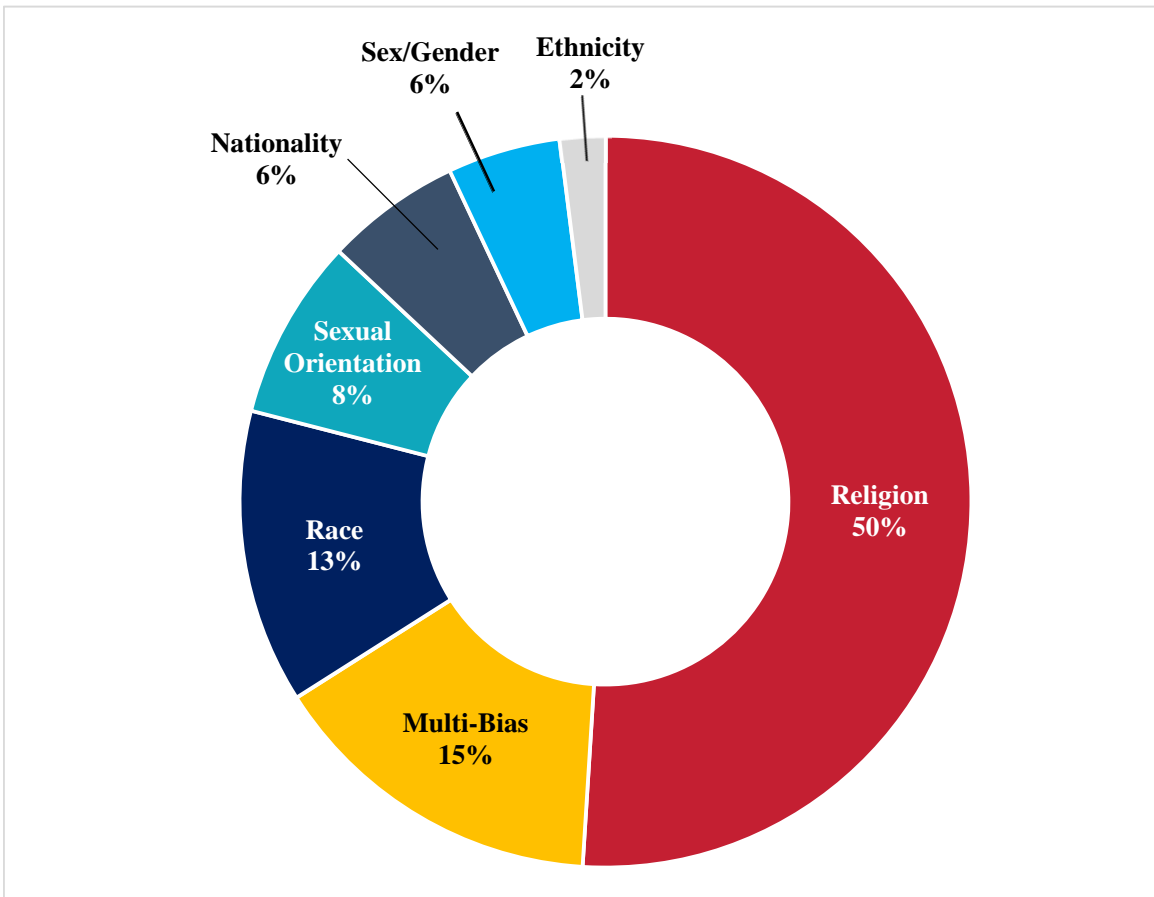

*Note: This figure is based on statistical data collected over the past ten years. The highest reported number of occurrences was 186 (2017) and the lowest reported number of occurrences was 123 (2011).*

Motivation of Hate Crime Victimization

Religion, sexual orientation and race have been the predominant motivation factors for hate crimes over the past ten years. In 2018, these factors were present in the following approximate proportions: religion 51%, followed by multi-bias 15%, and race 13% (Table 3.1 refers).

**Figure 3.2: Breakdown by Hate Category 2018**

*Note: Figure 3.2 is based on the total number of hate crimes reported in 2018 (Figure 3.1). Age, Disability, and Similar Factor compose 0% of the hate occurrences in 2018.*

2018			3	8		21	8	17	69		11	137

**Note:** Figures highlighted in grey represent the three most targeted categories within the year specified.

#### IV. Criminal Offences- Hate Motivated

In 2018, the most prevalent hate occurrences were for the offences of mischief to property, assault and utter threats. Assault and utter threat occurrences were all incidents that were unprovoked by the victims. As in past years, these offences occurred in a variety of different locations such as: schools; business/retail; public transportation; and streets/laneways (refer to Appendix B for detailed classification of 2018 offence locations).

##### Mischief to Property

Mischief to property represented a significant portion of the offences, accounting for 75 of the 137 occurrences. In comparison to 2017, there was a decrease in the number of mischief to property occurrences motivated by hate. In 2017, 120 of the 186 occurrences were mischief to property motivated by hate. The total proportion of mischief to property occurrences to all reported occurrences decreased from approximately 65% in 2017 to approximately 55% in 2018.

Vandalism and graffiti were the two primary forms of mischief perpetrated by the offender. The most common offence locations were schools/universities, dwellings, parks and streets/laneways (Appendix B). The hate categories most targeted were religion and race.

The Jewish community and the Black community were the predominant victim groups for mischief occurrences in 2018.

Toronto Police Service – Hate Crime Unit  
Annual Hate Crime Statistical Report  
2018

---

Assault

In 2017 and 2018 there were a total of 32 assault occurrences reported in each year. The proportion of assault occurrences to all reported hate crimes increased from 17% in 2017 to 23% in 2018. The hate categories that were targeted the most were religion and sex (refer to Appendix D for summary statistics of victim groups and offences). Muslims and Women were the predominant victim groups for assaults in 2018.

Utter Threats

There were a total of 15 utter threat occurrences motivated by hate in 2018 compared to 21 in 2017. Religion was the highest reported motivation factors for this offence (Appendix D). The Jewish and Muslim communities were the predominant victim group for utter threat occurrences in 2018.

Internet

Electronic communications including the internet remains a method for offenders to communicate hate propaganda, threats and criminal harassment, because of their perceived ability to remain anonymous.

In 2018, three hate occurrences were committed via the internet, representing approximately 2% of the total hate motivated occurrences. Based on the increasing prevalence of the internet as a medium of communication, the HCU continues to closely monitor open forum websites, chat rooms, message boards, etc. and initiate investigations as required. When possible criminality is identified, the HCU draws on other Service resources, including support from the Computer Cyber Crime and the Technological Crime Sections of Intelligence Services.

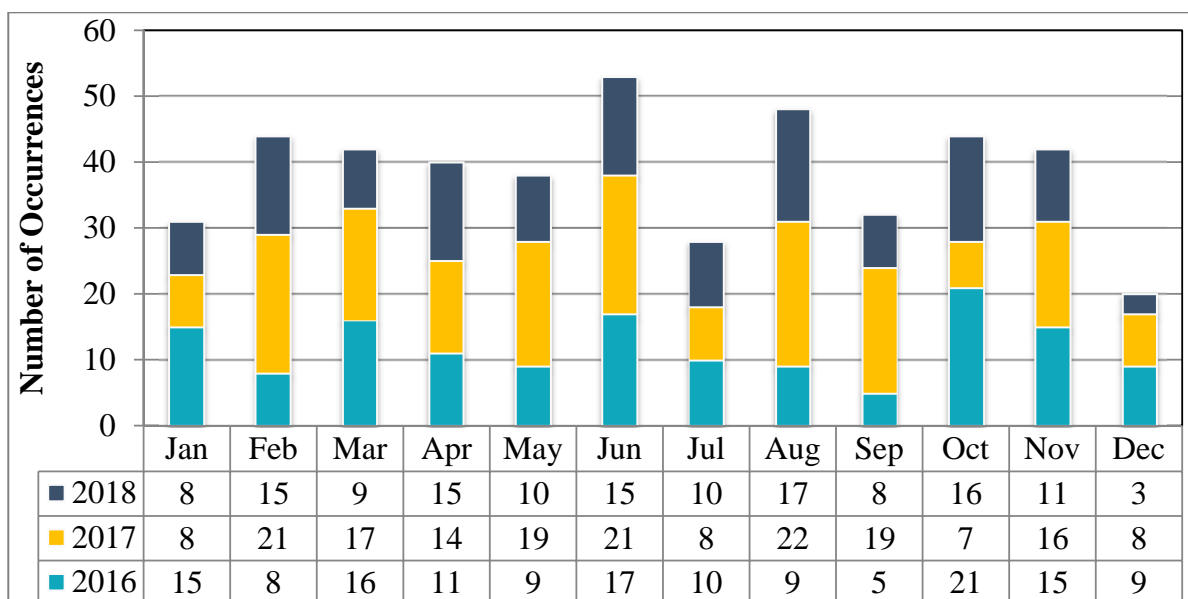

## V. Patterns of Hate Motivated Offences

### Monthly Activity of Hate Occurrences

In 2018, the months with the highest number of hate motivated occurrences were August (17), October (16), and then February, April and June each with 15. The months with the lowest activity were January (8), September (8) and December (3) (Figure 5.1).

Figure 5.1: Monthly Hate Occurrences Comparative Analysis 2016-2018

### Hate Occurrences by Division

The police divisions with the highest numbers of hate occurrences were 52 Division, 31 Division and 51 Division reporting 17, 17 and 15 occurrences, respectively in 2018 (Table 5.2).

In 2018, most Divisions experienced a decrease in the number of hate occurrences compared to 2017 with the exception of 14 Division, 31 Division, 53 Division and 54 Division (refer to Appendix C for 2018 divisional summary of offences by division).

## VI. Commonly Victimized Groups

### Community Victimization

Victim groups are categorized by the suspect’s perception. The victim group most targeted in 2018 was the Jewish community with 50 occurrences. The Muslim community and the Black communities were the next most targeted victim group reporting 18 and 16 occurrences each followed by the LGBTQ community reporting 13 occurrences (Figure 6.1 and Table 6.1).

Breakdown of Victim Groups Targeted in Multi-Bias Occurrences

When more than one identifiable group is targeted, the occurrence is categorized as multi-bias. In 2018 there were 21 hate occurrences classified as multi-bias, in comparison to 27 in 2017.

Of the 21 hate occurrences that were categorized as multi-bias in 2018, the Black community was targeted in 10 of the 21 occurrences (Tables 6.2 and 6.3) and members of the Jewish community were targeted in 11 of the 21 multi-bias occurrences. The LGBTQ and the Muslim community were targeted in 7 and 6 of the 21 multi-bias occurrences, respectively. Notably, since 2005, religion, race and sexual orientation have been the three most common motivation factors for hate crime victimization (Table 6.3).

Religion, Race and Sexual Orientation

The highest percentage of the 137 reported hate criminal occurrences in 2018 were motivated by religion (50%=69), followed by race (12%=17) and sexual orientation (8%=11).

The religious groups most victimized in 2018 were members of the Jewish and the Muslim/Islamic communities. In 50 of the 69 crime occurrences involving religion, the victims were members of the Jewish community and 18 of the 69 hate crime occurrences, the victims were members of the Muslim/Islamic community.

Of the 69 hate crime occurrences in which religion was the motivating factor, mischief to property offences, such as graffiti and damage to property accounted for 45 of the reports. (Appendix D).

Toronto Police Service – Hate Crime Unit  
Annual Hate Crime Statistical Report  
2018

For the 17 hate crime occurrences in 2018 where race was the motivating factor, the Black community was the most frequently victimized group, accounting for 16 of the 17 occurrences. These occurrences were mainly mischief under (9); mischief to religious property (2); mischief interfere with property (1); assault (1); assault with a weapon (1); assault peace officer (1); and criminal harassment (1) (Appendix D).

In 2018, the LGBTQ community was victimized in 13 of the 137 hate crime occurrences. Sexual orientation and sex were the two motivating factors. These occurrences included the following offences: assault (5); mischief under (3); utter threats - bodily harm/damage (2); assault with a weapon (2); and mischief to religious property (1); (Appendix D).

The number of assault occurrences motivated by sexual orientation and sex in 2018 decreased from 22 in 2017 to 6 in 2018. In all of the assault occurrences, the victims were subject to derogatory comments and were either punched, or pushed by the suspect(s) during the assault.

In comparison to 2017 (12%), the total percentage of hate occurrences in the LGBTQ community decreased in 2018 (9%). Hate motivated assault occurrences in the LGBTQ community represented 4% of the total occurrences in 2018.

**VII. Accused / Suspect Identification**

Accused/suspect information is typically provided by victims, witnesses, surveillance footage and forensic evidence. The Service’s Forensic Identification Unit plays a significant role in collecting physical evidence such as DNA and fingerprints at crime scenes. Service Procedure 05-16 Hate Crime requires all police officers investigating a hate crime to protect the scene and secure all relevant evidence including items such as posters, graffiti, recordings and clothing for forensic examination. Furthermore, officers are required to photograph the scene where the graffiti is found or when evidence cannot be readily detached or retrieved.

In 2018, victims and witnesses were able to provide information on accused/suspect identification in 66 of the 137 total hate occurrences, accounting for 48% of the occurrences. It is often very difficult to identify suspects, as many hate crimes occur without any witnesses present. Moreover, many hate crimes occur without the victim present, as in the case of hate motivated graffiti or mischief. For example, in 2018, victims and/or witnesses were able to provide accused/suspect information in approximately 21% of the total mischief to property occurrences, accounting for 16 of the 75 hate occurrences.

Among accused and suspected persons, males form the dominant offender group with 58 males identified in 2018 compared to 8 females. Among identified persons committing hate offences, the largest group consisted of males in the 18-25 year age group (Tables 7.1 and 7.2).

Since 2003, the dominant offender group has been males, specifically in the 18-25 year age group with the exception of 2008, 2015, and 2017 when the dominant offender groups were persons in the 12-17 year age, over 40 years, and 18-25 years of age group, respectively.

### VIII. 2018 Arrests/Charges

As in previous years, offenders may be charged with a number of offences, not all of which are hate motivated. Only those charges relating directly to hate motivated criminal offences are included in Table 8.1.

The number of hate motivated arrests decreased in 2018 in comparison to 2017. In 2018, there were 18 persons arrested for hate motivated offences compared to 23 persons arrested in 2017. A total of 39 hate motivated criminal charges were laid against these 18 persons in 2018 compared to 30 hate motivated charges being laid against 23 persons in 2017. The 2018 charges were in relation to 24 hate occurrences (Table 8.1).

## IX. Sentencing

The following court dispositions include all criminal proceedings which concluded in the judicial system during 2018. The dispositions include hate crime cases that commenced between 2015 and 2018.

The dispositions include custodial sentences, significant time spent in pre-trial custody, suspended sentences, and periods of probation with conditions including counseling, peace bonds and weapons prohibitions.

### Historical Cases 2014-2017

In 2018, there were nine criminal cases involving nine accused persons that concluded before the courts that originated from incidents that transpired between 2015 and 2017. These nine cases were completed as follows: two guilty pleas, two withdrawals, and five were resolved by peace bond (Appendix A - Table A.2). There are currently two hate motivated criminal cases remaining before the courts arising from incidents that occurred in 2014 and 2016. There are currently four hate motivated charges pending before the courts arising from occurrences that transpired in 2017.

### 2018 Cases

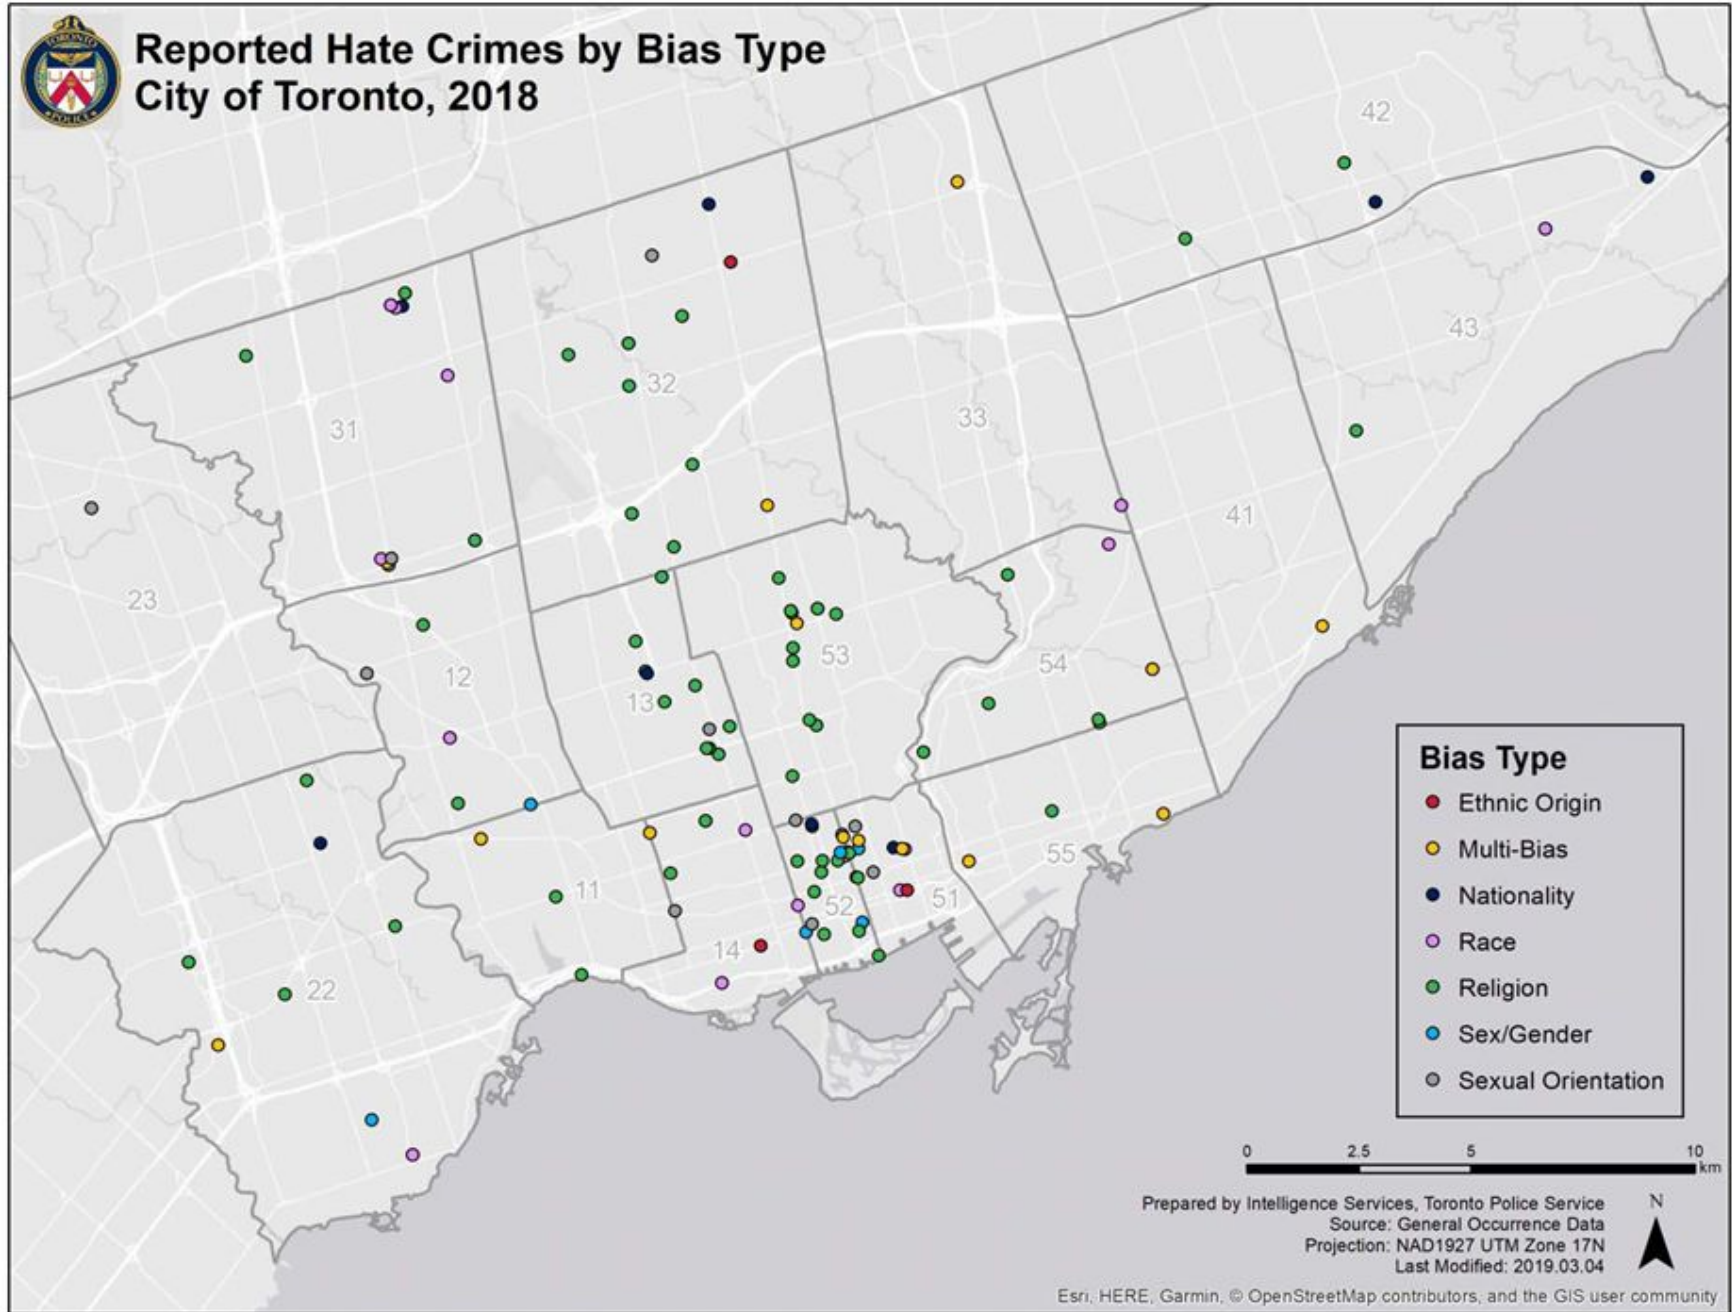

In 2018, there were 25 criminal cases before the courts that originated from incidents reported in 2018. There were a total of 18 accused persons and 39 hate motivated charges laid.

Six of these 25 cases have been completed as follows: four guilty pleas; and two withdrawals (Appendix A - Table A.1).

At year-end 2018, there are currently 19 cases involving hate motivated charges pending before the courts.

## XI. Toronto Population and Demographics

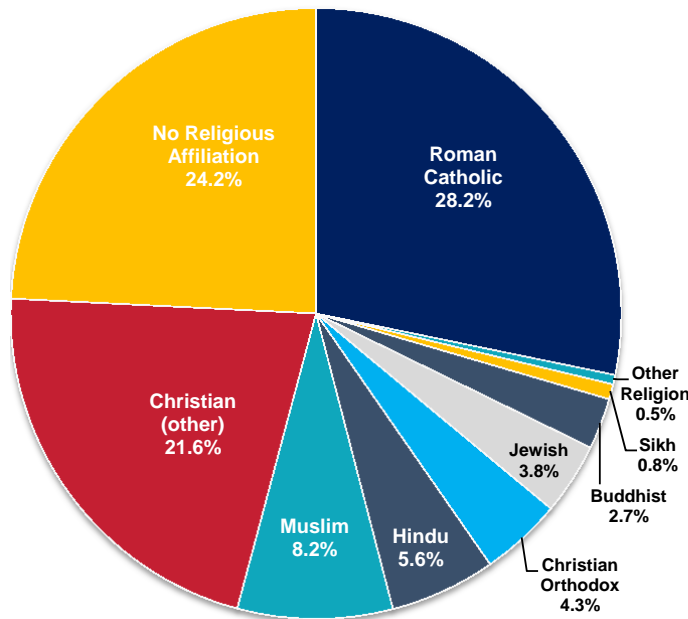

Toronto, with a population of 2.73 million people (6.9 million in the GTHA-Greater Toronto and Hamilton Area), is one of the most multicultural cities in the world and ranked fourth on The Economist Intelligence Unit’s Safe Cities Index.<sup>1</sup>

The 2016 and 2011 Census conducted by Statistics Canada provides the most current information regarding the population and religious affiliation information for the City of Toronto (Figure 11.1 and 11.2). These charts are provided to give some context to the statistics in this report.

**Figure 11.1: Visible Minority Population in Toronto**  
(Source: Statistics Canada, 2016)

**Figure 11.2 Religious Affiliations in Toronto**  
(Source: Statistics Canada, 2011)

In 2016, approximately 51% of Toronto’s population belonged to a visible minority group—this denotes an increase from approximately 49% that was reported in 2011.<sup>2</sup> Since 2011, increases in visible minority populations were observed within several communities including the South Asian, Chinese, Black, and Filipino communities, as well as those who identified as multiple visible minorities (Figure 11.1).

As noted earlier in the report, the most targeted groups in Toronto in 2018 were the Jewish community, followed by the Muslim and Black communities, and the

LGBTQ community:

- The Jewish community represents 3.8% of the religious population in the City of Toronto but was victimized in approximately 36% of the total hate crimes;
- The Black community constitutes 8.9% of the visible minority population but was victimized in approximately 12% of the total hate crimes; and,
- The Muslim community represents 8.2% of the religious population and was victimized in approximately 13% of the total hate crimes in 2018.

According to the 2014 Canadian Community Health Survey (CCHS) conducted by Statistics Canada, 1.7% of Canadian adults between the ages of 18 and 59 reported themselves to be homosexual and 1.3% reported themselves to be bisexual.<sup>3</sup> It is of significance to note the CCHS relies upon a large sample of respondents, is not divided by region, and does not include an option for transgendered individuals; therefore, this rate is likely underreported and not an entirely accurate representation of the population of the LGBTQ community in Toronto. Despite the lack of statistics in this area, what is known is that the LGBTQ community was victimized in approximately 9% of the total hate crimes in 2018.

## XII. Hate Crime Unit Education and Community Outreach Initiatives

### Intelligence Gathering and Investigative Support Role

The HCU exchanges information through its networks within the Toronto Police Service, as well as provincial, national and international police services and other law enforcement agencies.

In 2018, the HCU continued to be an active partner of the provincial Hate Crime and Extremism Investigative Team (HCEIT). The HCEIT consists of members from fifteen Ontario police services that receive provincial funding for the joint collection and sharing of information, enforcement and education on hate crimes. In 2018, representatives included members from the following police services:

- Brantford Police Service
- Durham Regional Police Service
- Guelph Police Service
- Halton Regional Police Service
- Hamilton Police Service
- London Police Service
- Niagara Regional Police Service
- Ontario Provincial Police Service
- Ottawa Police Service
- Peel Regional Police
- Stratford Police Service
- Toronto Police Service
- Waterloo Regional Police Service
- Woodstock Police Service and
- York Regional Police

In order to ensure public safety and/or assess the presence of criminality, the HCU attended and monitored events involving potential hate activity as well as public demonstrations with political or ideological overtones where the involved groups were strongly opposed to one another.

The HCU provided police divisions with ongoing investigative support, case tracking and relevant intelligence exchange.

### Training and Education

Throughout 2018, HCU members attended provincial hate crime and extremism training relating to hate crime laws and trends, investigative strategies and the prosecution of hate crimes with police services, community agencies and partners from across North America in Ottawa, Toronto and Niagara Falls.

In March 2018, the Ministry of the Attorney General’s Office held a two-day hate crime conference in Toronto. The TPS HCU attended and participated on a police panel, *Hate Crime – Policing Perspective*, to discuss investigative challenges, prevention and the impact of hate crimes in the community. The conference was attended by Crown Attorneys and representatives from police services from across the province.

Toronto Police Service – Hate Crime Unit  
Annual Hate Crime Statistical Report  
2018

In 2012, the Ontario Police College (OPC) in partnership with HCEIT created an Advanced Hate Crime Investigators Course for police officers. The course focuses on an enhanced understanding of the investigation of hate crimes and the application of federal legislation to hate propaganda. The course was offered at OPC in May and October 2018, and was attended by members from Ontario police services, including members from TPS. TPS HCU members delivered presentations to the attendees and this training will continue in 2019.

In October 2015, the HCU assisted in creating materials that included an information booklet and training video for the Service's front-line officers. The information booklet and video provides tools, resources and procedures for hate crimes and criminal extremism. These resources continue to be made available and will be utilized in 2019.

In November 2018, the HCU hosted the annual divisional Hate Crime Coordinators (HCC) meeting with HCC's from the Service's 17 police divisions and districts. The purpose of the meeting was to review and discuss divisional hate crime cases, current case law and other issues relating to hate crimes.

In addition, throughout 2018 the HCU liaised with members of the community including schools, government, and community organizations on the subject of hate crimes.

#### Community Outreach

In 2018, the HCU consulted with many diverse community organizations and representatives for the purposes of education, negotiation, mediation for public order and safety and to address community concerns specific to hate crimes.

In January 2018, the TPS Community Partnerships & Engagement Unit (CPEU) in partnership with community partners and agencies updated and created crime prevention pamphlets including, *HATE MOTIVATED CRIME: WHAT YOU NEED TO KNOW ABOUT HATE CRIME*. These pamphlets were distributed to the divisions and are available to the public. In 2019, these pamphlets will be electronically accessible to the public via the TPS website.

The HCU continued its partnership with the CPEU and the Lesbian Gay Bisexual Transgender Queer Two-Spirit Liaison Unit to provide local and international education on LGBTQ2S awareness including support of the Report Homophobic Violence Period Program and the Trans Media Campaign. The Report Homophobic Violence Period (RHVP) campaign is a public awareness and education campaign which focuses on youth 13 to 25 years of age and addresses the issue of homophobic and transphobic bullying and violence.

RHVP is an initiative of the Service's LGBTQ2S Community Consultative Committee and was developed in 2007 by the Service in partnership with a large number of community partners and community service providers.

The Trans Media Campaign was initiated in 2014 by the LGBTQ2S Liaison Unit in partnership with Corporate Communications to increase reporting, decrease attacks against the Trans

community, educate Service members about the Trans community and improve the relationship between the Service and the Trans community. In 2015, Crime Stoppers partnered with Trans Media Campaign members to address hate crimes against the Trans community. The Trans Media Campaign formally launched via social media, printed materials, community newspapers and the Service's intranet on June 2016.

In February 2018, the Centre for Israel and Jewish Affairs and UJA Federation of Greater Toronto held a one day conference, *Combating Hate Speech and Antisemitism*, in Toronto. The conference was attended by community leaders, legal professionals, and police officers. The HCU participated on a panel discussion, *Dealing with Online Hate*, to discuss reporting, investigative challenges and on-line hate propaganda.

In April 2018, the HCU presented at the Rhema Foundation Canada, a non-government organization, *Safety and Protection Awareness Event* in Toronto. The Rhema Foundation presentation included hate crime awareness, reporting and prevention to community and faith-based organizations. Other presenters included members of the TPS CPEU, Toronto Fire Services, and Toronto Paramedic Services.

In November 2018, HCU presented at the Friends of Simon Wiesenthal Center for Holocaust Studies, *Hate Crime in Canada Conference: Best Practices & Moving Forward*. The conference was held in Toronto and attended by HCEIT team members and police officers from across Canada.

In September 2018, Public Safety Canada Centre for Community Engagement and Prevention of Violence convened a roundtable discussion to discuss national and local best practices, prevention, and challenges in the area of countering violent extremism and hate crimes. This event was hosted by Peel Regional Police – Equity & Inclusion Bureau, and participants included representatives from Public Safety Canada, an Academic, TPS HCU and CPEU, Peel Regional Police, Ontario Provincial Police and a representative from United Kingdom – Prevent Strategy.

In December 2018, the HCU delivered presentations to Centennial College campus security officers, and students. The presentation topics included recognizing, understanding and reporting hate crimes.

Additionally, in December 2018, members of the HCU delivered a presentation at the *Community - Police Consultative Conference* hosted by CPEU at the Toronto Police College. Representatives from Community Police Liaison Committees (CPLC) from across the city were in attendance and received training in relation to hate crime awareness and reporting.

Media Outreach

HCU members continue to provide interviews to local and national media on a variety of hate crime issues upon request.

The HCU is committed to the prevention and investigation of hate motivated crimes and to the education of our police and community partners. Open consultation with the community in a mutually supportive manner is recognized as the most effective way of achieving these goals.

## Toronto Police Services Board Report

---

March 8, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Annual Report: 2018 Activities and Expenditures of  
Community Consultative Groups**

### **Recommendation(s):**

It is recommended that the Toronto Police Services Board (Board) receive this report for information.

### **Financial Implications:**

Upon receipt of the Community Consultative Groups Annual Report, each committee will receive \$1,000.00 in annual funding, with exception to the Chief's Youth Advisory Committee that receives \$2,000.00 annually, which will result in the Board's Special Fund being reduced by \$30,000.00.

### **Background/Purpose:**

In accordance with the Board's Community Consultative Groups Policy, and provisions set out in the Special Fund Policy, each consultative group will receive \$1,000.00 in annual funding from the Board's Special Fund, following the receipt of an annual report from each consultative group detailing the activities and expenditures from the previous year.

The purpose of this report is to provide the Board with an annual review of the activities and accounting of the Community Consultative Groups during the period of January 1, 2018, to December 31, 2018.

### Community Consultative Process:

The Mission Statement of the Toronto Police Service Consultative Committee processes is:

“To create meaningful partnerships through trust, understanding, shared knowledge and effective community mobilization to maintain safety and security in our communities.”

Community Consultative Groups includes the following:

- Community-Police Liaison Committees (C.P.L.C.);
- Community Consultative Committees (C.C.C.);
- Chief’s Advisory Council (C.A.C.); and
- Chief’s Youth Advisory Committee (C.Y.A.C.).

The community consultative process is not meant to provide another level of police oversight, but rather to establish a process that affords opportunities for enhanced community safety involving community based activities and leadership, the mutual exchange of information and the development of joint problem solving initiatives.

Community Consultative Groups are governed by the Volunteer Manual which sets out expectations and standardized mandated activities. Some of those requirements are as follows:

- Meet at least four times per year;
- Set goals and objectives consistent with Service priorities at the beginning of each calendar year;
- Hold one town hall forum jointly with police annually;
- One value-added community-police project per year consistent with Service priorities;
- Participate in the Annual Community Police Consultative (C.P.C.) Conference for Consultative members;
- Keep minutes of all meetings;
- Prepare a financial statement for the Committee Executive when requested; and
- Complete a year-end Activity and Annual Performance Evaluation Report.

#### Community-Police Liaison Committees:

A C.P.L.C. is mandated and established in each of the sixteen policing divisions.

The purpose of the C.P.L.C. is to provide advice and assistance to the local Unit Commander on matters of concern to the local community including crime and quality of life issues. The C.P.L.C. is also consulted as part of the divisional crime management process established by Service Procedure 04-18 entitled “Crime and Disorder Management,” a process which includes assisting the local Unit Commander in establishing annual priorities.

The composition of the C.P.L.C.s differ across the city, as each Unit Commander is required to establish a committee that reflects the unique and diverse population served by a particular policing division. C.P.L.C. participants shall include representation from various racial, cultural or linguistic communities, social agencies, businesses, schools,

places of worship, local youth and senior groups, marginalized or disadvantaged communities and other interested entities within the local community. Each C.P.L.C. is co-chaired by a Senior Officer and a community member.

#### Community Consultative Committees:

The C.C.C.s are meant to serve and represent specific communities throughout the City. The membership is drawn from various organizations within each of these communities, and serves as a voice on wider policing issues such as training, recruiting, professional standards, and community mobilization.

The Service currently maintains a C.C.C. for the following communities:

- Aboriginal;
- Asia Pacific;
- Black;
- Chinese;
- French;
- Lesbian, Gay, Bisexual, Trans, Queer, Two-Spirited (L.G.B.T.Q.2.S.);
- Muslim;
- Persons with Disabilities;
- Seniors; and
- South and West Asian.

Each C.C.C. is co-chaired by a Senior Officer and a community member.

#### Chief's Advisory Council and Chief's Youth Advisory Committee (C.A.C. and C.Y.A.C.):

The Service operates a third level of consultation at the Chief of Police level. The C.A.C. and the C.Y.A.C. exist to provide a voice for various community representatives from businesses through to social agencies, spanning the various diverse communities as well as youth on a wide variety of issues.

#### Reporting:

Each community consultative group is required to include in a year-end report and accounting for expenditures made from the Board's funding received during the year. The funds are generally used for crime prevention initiatives, community outreach, community events, 'value-added' community projects and administrative meetings.

Expenditures have been recorded and verified within the Systems Application Products (S.A.P.) accounting software used by the Service with checks at the unit level and at Finance and Administration.

#### Summary of Activities and Expenditures:

The breakdown is as follows:

	<b>Committee</b>	<b>Amount</b>
1	Chief's Advisory Community Consultative Committee	\$1,000.00

27	53 Division Community Policing Liaison Committee	\$1,000.00
28	55 Division North Community Policing Liaison Committee** (formerly 54 Division)	\$1,000.00
29	55 Division South Community Policing Liaison Committee** (formerly 55 Division)	\$1,000.00
<b>Grand Total:</b>		<b>\$30,000.00</b>

*\* The very diverse community of people living with disabilities in our city affords us with many unique perspectives as they advocate for respect and challenge stigma. The community, however, is very much unified in their recognition of 'Person First' language as a top priority. The simple practice of emphasizing the 'person' when acknowledging an individual, as opposed to defining them by a diagnosis, is now a universal expectation. As such, an organization hoping to maintain credibility in this community must strive to use respectful language in all interactions with its members and when referencing the community broadly. T.P.S. recently formed the Disabilities C.C.C.*

*representing people living with a disability in Toronto, is requesting that's its official name be amended to Persons with Disabilities C.C.C. to reflect this norm.*

*\*\* Due to the merge of 54 Division with 55 Division, 54 Division C.P.L.C. and 55 Division C.P.L.C. will remain as two separate committees but will be known as 55 Division North C.P.L.C. and 55 Division South C.P.L.C. The decision to keep the committees separate is due to the large geographic area that now makes up 55 Division; thereby ensuring the needs of the community are still being adequately met.*

Appendix "A" attached to this report provides a summary of activities and expenditures for each of the consultative groups in 2018. Committees that have exceeded the allotted budget are responsible for covering any surplus.

## **Conclusion:**

The Service continues to remain committed to an effective and constructive community consultative process with community stakeholders in an atmosphere based on mutual trust, respect and understanding. The current Community Consultative Process, sustained financially through the Board's Special Fund, is one method utilized by the Service to advance the goal of an empowered community.

Constructive partnerships and positive outcomes that occur as a result of community-police interaction remain the cornerstone of a successful police service, leading to a safer community and meeting the goals of the Service:

- Be where the public needs the Service the most
- Embrace partnerships to create safe communities
- Focus on the complex needs of a large city

Deputy Chief Peter Yuen, Communities and Neighbourhoods Command, will be in attendance to answer any questions that the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police

## Toronto Police Services Board Report

---

March 1, 2019

To: Chair and Members  
Toronto Police Services Board

From: Andy Pringle  
Chair

**Subject: Annual Report: Toronto Police Services Board's 2018 Consulting Expenditures**

**Recommendation(s):**

It is recommended that the Board receive this report for information.

**Financial Implications:**

There are no financial implications relating to the recommendation contained within this report.

**Background / Purpose:**

At its meeting on February 20, 2003 the Board approved a motion requiring the reporting of all consulting expenditures on an annual basis (Min. No. P45/03 refers).

This report provides details of the 2018 consulting expenditures for the Toronto Police Services Board, in the City's prescribed format and based on the definition of consulting services provided by the City. The City's definition of consulting services is as follows:

**any firm or individual providing expert advice/opinion on a nonrecurring basis to support/assist management decision making in the areas of technical, information technology, management/research and development (R&D), external lawyers and planners, and creative communications.**

**Discussion:**

The information contained in this report has already been forwarded to the City, as the completion of the Service's year-end accounting process and the timing of the Board meetings did not allow this report to be forwarded to the Board in advance of the City's February 28, 2019 deadline.

**Conclusion:**

It is, therefore, recommended that the Board receive this report for information.

Respectfully submitted,

## Toronto Police Services Board Report

---

March 25, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Annual Report: 2018 Toronto Police Service's Consulting Expenditures**

### **Recommendation(s):**

It is recommended that the Board receive this report.

### **Financial Implications:**

The 2018 actual consulting expenditures totalled \$2.31 Million (M) (\$2.18M for operating and \$0.13M for capital).

Funding for the expenditures detailed in this report were paid for out of the 2018 Toronto Police Service (Service) operating budget or capital budget. The expenditures referenced in this report are net of harmonized sales tax (H.S.T.) rebate.

### **Background / Purpose:**

At its meeting of February 20, 2003 (Min. No. P45/03 refers), the Board requested that the Service report all consulting expenditures on an annual basis. In addition, at its meeting of March 23, 2006 (Min. No. P103/06 refers), the Board requested that future annual reports be revised so that capital consulting expenditures are linked to the specific capital project for which the consulting services were required. City Finance also requires the annual reporting of consulting expenditures in their prescribed format, so that the City's Chief Financial Officer can provide a consolidated report to City Council.

This report provides details of the 2018 consulting expenditures for the Service's operating and capital budgets, in the City's prescribed format and based on the definition of consulting services provided by the City. The City's definition of consulting services is as follows:

“any firm or individual providing expert advice/opinion on a non-recurring basis to support/assist management decision making in the areas of technical, information technology, management/research and development (R.&D.), external lawyers and planners, and creative communications.”

The information contained in this report has already been forwarded to the City, as the completion of the Service’s year-end accounting process and the timing of the Board meetings did not allow this report to be forwarded to the Board in advance of the City’s February 28, 2019 deadline.

**Discussion:**

The operating budget for consulting services is developed using zero-based budgeting. As such, 2018 expenditures for consulting services are based on requirements identified during the 2018 budget process.

The Service has taken steps to manage the use of consultants and only contract for these services when:

- the skills/expertise are not available in-house;
- there is not a permanent requirement for the expertise/skill set; or
- there is a need to obtain independent/third part advise on an issue or initiative.

The 2018 operating consulting actual expenditures totalled \$2.18M. The following table summarizes the nature of the expenditures with the details reflected in Attachment A.

Nature of Expense / Initiative	Amount
Legal Services	\$26,853
General Information Technology (I.T.)/Technical Services	\$586,106
Human Resources (H.R.) Transformation Services	\$645,682
Transformational Task Force Initiatives	\$500,574
Communications related services	\$418,308
Total	\$2,177,523

The 2018 capital consulting actual expenditures (as reflected in Attachment B) were \$0.13M. This amount represents technical planning for the use of Public Safety Broadband, as well as continued expenditures for the feasibility study conducted for back-up generators and the requirement for Fairness Commissioners to assist in the future procurement of a body worn camera system and radio equipment purchase. Capital projects generally involve multi-year cash flow requirements, and the 2018 expenditure may therefore represent only a portion of the total contract value.

**Conclusion:**

Consulting expenditures are funded from the Service's operating and capital budgets, and are reported annually to the Board and the City. The Service ensures that consulting services are used only where necessary and beneficial.

Details of the 2018 consulting expenditures for the Service's operating and capital budgets are provided in Attachments A and B respectively.

Mr. Tony Veneziano, Chief Administrative Officer, will be in attendance to answer any questions the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police

## Toronto Police Services Board Report

---

March 25, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Annual Report: 2018 Public Sector Salary Disclosure**

### **Recommendation:**

It is recommended that the Toronto Police Services Board (Board) receive this report for information.

### **Financial Implications:**

There are no financial implications relating to the recommendation contained in this report.

### **Background / Purpose:**

The Public Sector Salary Disclosure Act, 1996 (P.S.S.D.A.) and the Public Sector Salary Disclosure Amendment Act, 2004 were passed to make Ontario's public sector more open and accountable to taxpayers. Therefore, in accordance with the P.S.S.D.A., the Toronto Police Service (Service) is required to disclose the names, positions, salaries and taxable benefits of employees who were paid \$100,000 or more in a year, based on T4 reporting. The report includes active, retired and terminated members, and includes all remuneration earned and reported, including paid duty earnings.

This information, which includes Service and Board employees, is submitted to the City of Toronto Pension, Payroll and Employee Benefits Division for inclusion in a corporate report filed, by the City, with the Ministry of Municipal Affairs and Housing.

The Ministry of Finance also requires that organizations with members seconded to other ministries file the listing of those members with the appropriate ministry. For the 2018 reporting year, the Service had nine members seconded to the Ministry of Community Safety and Correctional Services. A separate listing of the members appearing on the Public Sector Salary Disclosure (P.S.S.D.) listing has been provided to that ministry.

The Province (Treasury Board Secretariat) posts the information provided by each organization in and around the end of March of the following year.

## **Discussion:**

The P.S.S.D.A., 1996 defines "Salary Paid" as "the amount paid by the employer to the employee in a given year, as reported on the T4 slip (Box 14 minus Taxable Benefits total)". This amount is reported if it is equal to or above \$100,000.

Service members receive a T4, which includes all remuneration paid by the Service. Box 14 on the T4 includes regular salary, retention pay, acting pay, premium pay (including court time, call backs and overtime) and any retroactive adjustments paid in the applicable calendar year. Beginning in 2010, T4 earnings also include income from paid duties, which are paid by external customers and flow through the Service's payroll system in order to comply with Canada Revenue Agency (C.R.A.) statutory deduction requirements. There is no requirement to separate paid duty earnings from regular earnings in the P.S.S.D.. As a result, both earnings are consolidated into the "Salary Paid" column.

Taxable benefits are reported as a separate line item for those employees who earned \$100,000 or more. Taxable benefits for Service members, as defined by the C.R.A., include the value of life insurance premiums for coverage provided by the employer, employer-provided parking and the personal use of employer-provided vehicles.

The P.S.S.D.A. requires that the listing be reported in alphabetical order to the Province. However, at the request of the Board, the Service now also provides the information to the Board only, in descending order by salary paid.

Accordingly, Appendix A provides the salary paid in alphabetic order, and Appendix B provides the same information in descending order by salary paid.

### *Number of Employees on the 2018 Disclosure Listing:*

Salaries have increased over the years due to contract settlements and arbitration awards. As a result of the 2015 to 2018 contract settlement, members of the Toronto Police Association (T.P.A.) received a 1.75% salary increase on January 1, 2018. The 2015 to 2018 contract between the Board and Senior Officers Organization resulted in the same salary increases as the T.P.A. for 2018.

In 2018, 4,963 Service employees earned more than \$100,000. This includes 4,466 uniform and civilian employees whose base salary is greater than \$100,000.

These figures may fluctuate due to acting assignments, retirees, other separations and collective agreement adjustments. For uniform employees, the 2018 base salary range for Staff and Detective Sergeants, Sergeants, Detectives, Plainclothes Training Constables, and First Class Constables (P.C.1) , including the 9% retention pay, is above the \$100,000. It should also be noted that as of 2018, there are 164 T.P.A. civilian positions that are above the \$100,000 base.

The 2018 salary disclosure figure also includes 497 employees whose base salary is normally under \$100,000. The earnings for these employees were the result of their

combined base salary, premium pay, paid duty earnings and other payouts, including final payments upon separation from the Service.

The table below details the make-up of the 497 (in 2018) members on the listing whose base salary is normally under \$100,000.

<b>Rank</b>	<b>2018</b>	<b>2017</b>
Police Constable	333	1,626
Civilian members	164	102
<b>Totals</b>	<b>497</b>	<b>1,728</b>

It should be noted that 336 of the 497 members whose normal base salary is below \$100,000 have a 2018 base salary between \$90,000 and \$99,999.

As noted earlier, members whose normal base salary is below \$100,000 can be on the P.S.S.D. list as a result of premium pay, separation payouts governed by the collective agreement, retroactive payments and paid duty earnings. Premium pay can result from required court attendance, overtime earned when members work beyond their regular shift and call-backs when members are requested to return to work for various operational reasons or special projects. Premium hours worked are paid according to collective agreement provisions.

### **Conclusion:**

In accordance with the P.S.S.D.A., this report provides the names, positions, salaries and taxable benefits of Service and Board employees who were paid more than \$100,000 in 2018. The information is provided in alphabetical order as required by the Ministry, and in salary paid descending order as requested by the Board.

The report is provided to the Board for information, and has been forwarded to the City for inclusion in a corporate report filed with the Ministry of Municipal Affairs and Housing. The full public sector salary disclosure list is expected to be published on the Ministry of Finance website in late March, 2019.

Mr. Tony Veneziano, Chief Administrative Officer, will be in attendance to answer any questions the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police

## Toronto Police Services Board Report

---

March 25, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Annual Report: 2018 Police Cooperative Purchasing Group Purchases**

### **Recommendation:**

It is recommended that the Toronto Police Services Board (Board) receive this report.

### **Financial Implications:**

Funding for the expenditures detailed in this report was included in the Toronto Police Service's (Service) 2018 operating and capital budgets. The expenditures referenced in this report are inclusive of tax.

### **Background / Purpose:**

The Board Financial Control By-Law No. 147 amended by By-Law No. 148, 151, 153, 156, and 157, requires that the Chief of Police report annually to the Board on any expenditure over \$500,000 processed through the Police Cooperative Purchasing Group (P.C.P.G.) in the preceding year. In response to this requirement, the following information is provided.

### **Discussion:**

The Service has been and continues to be a member of the P.C.P.G. since its inception in 1996. The group provides its members (police services) throughout the province the opportunity for cost savings through volume buying and standardization of equipment. Currently, there are 22 active P.C.P.G. related contracts with the Service.

Pricing agreements are awarded through the P.C.P.G. process for police related items such as marked and unmarked police cars, tires, ammunition, pepper spray, body armour, uniform clothing, and footwear.

In 2018, Outdoor Outfitters was the only vendor that was not previously reported to the Board that utilized a P.C.P.G. contract, where the expenditure value exceeded \$500,000. The purchases were made across various units within the Service for the items listed below:

<b>Item</b>	<b>2018 Expenditures</b>
Alternative Cargo Pants	\$6,492
Patrol Jackets	\$311,803
Rain Wear	\$213,295
Safety Vests	\$35,523
Nomex Tactical Clothing	\$96,864
<b>Total Expenditures</b>	<b>\$663,977</b>

In addition, the Board received a report at its August 2018 meeting to approve the use of a P.C.P.G. contract with Yonge-Steeles Ford for the purchase of 2019 Ford Police Interceptor Utility Patrol vehicles (Min. No. P169/18 refers).

**Conclusion:**

The P.C.P.G. group and the sharing of the administration of the procurement process for the acquisition of various goods has worked well for the Service and other police services in the group, and is a good example of the benefits shared procurement can provide from a pricing and administrative perspective.

Mr. Tony Veneziano, Chief Administrative Officer, will be in attendance to answer any questions the Board may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police

## Toronto Police Services Board Report

---

February 08, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

**Subject: Toronto Police Service 2017 Pearls in Policing Conference**

### **Recommendation(s):**

It is recommended that the Board receive this report for information on the conclusion of the Pearls in Policing Conference.

### **Financial Implications:**

There are no financial implications in relation to the recommendation contained within this report.

### **Background / Purpose:**

At the meeting of September 15, 2016, the Toronto Police Services Board (Board) approved a request for \$200 000.00 from the Board's Special Fund for the Toronto Police Service (Service) to host the 2017 Pearls in Policing Conference (Pearls) (Min. No. P223/2016 refers).

The Board further approved, at its meeting of May 23, 2017, additional funding from the Boards Special Fund in the amount of \$50,000.00, less the return of any funds not used, to support this conference (Min. No. P118/2017 refers).

Pearls is an international law enforcement think tank where law enforcement executives (Commissioners and Chiefs) meet to identify emerging challenges in policing and develop collaborative solutions. These challenges are such that they can no longer be dealt with on a national level and their solutions require international input.

The responsibility for hosting the conference is alternated annually between the Netherlands and one of the participating guest nations. Although the Service has attended this conference for the past 10 years, this was the first time that the conference was held in Canada.

## **Discussion:**

Pearls is an invitation only conference launched in 2007 and is comprised of:

- The International Action Learning Group (I.A.L.G.) (16 persons involved)
- An academic forum
- Working groups
- Peer-to-peer consultations
- The annual conference (capped at 35 including 4 academics)

The 2017 conference was the 11<sup>th</sup> annual conference and ran from Monday, June 5<sup>th</sup> through Tuesday, June 13<sup>th</sup> at the Intercontinental Hotel in Yorkville.

A committee of Service members was formed to ensure the commitments the Service made to the Pearls Secretariat relating to the 2017 conference were fulfilled. There were several responsibilities that the Service undertook to support this conference. As host, the Service was responsible for:

- The conference/hotel venue
- Breakfast, lunch and dinner for the participants
- Transportation during the conference
- Airfare/travel cost for the academics
- Organization costs (staff, equipment, logistics etc.)

The Pearls financial model is different than most conferences. The I.A.L.G. is largely self-funded; the 16 attendees pay a fee and the funds are shared between the Pearls Secretariat, the Hong Kong Police Service and the Service. The Pearls part of the conference (capped at 35 attendees including the 4 academics) is the responsibility of the hosting police agency as described above.

In order to reduce the cost, the Service utilized off-duty volunteer members and unmarked Service vehicles for the transportation of delegates to and from the airport. A cost breakdown, that includes itemization of revenue and expenses, has been included as Appendix 'A'.

Total revenue incurred by the Service was \$338,090.14 with expenses totalling \$197,219.20. The Service returned \$140,870.94 to the Boards Special Fund at the conclusion of the conference.

The delegates of the Pearls in Policing are made up of high ranking police executives from around the world. All day working groups, presentations, assignments, and collaborative workshops were attended and scored. The final session discussed the key theme, "Fragile States, Fragile Communities" and lessons learned throughout the conference.

I.A.L.G. academics were each divided into teams and provided a policing issue, selected by Chief Mark Saunders, that they were required to spend the year researching a solution to. The I.A.L.G teams were required to complete a report and presentation on their findings which they then had to present to the PEARLS conference. 'Effective Policing for Mental Health' was the topic selected by Chief Saunders as this is a prevalent topic within Canadian jurisdiction, but specifically in Toronto. Working groups discussed what processes and procedures were developed by the Service in relation to effective policing for mental health; what was working and what was not; and provided examples of police agencies who were considered best in practice with reasons as to how and why their solutions were effective. The Service gained valuable insight and was able to have open discussions on how Police Services from across the globe mitigate, as well as react to, mental health concerns within the community.

### **Conclusion:**

Hosting this conference focused the attention of international police leaders on Toronto and provided an invaluable opportunity to network for police executives. The focus was on developing real, practical solutions to large issues facing policing organizations around the world, specifically in the field of mental health. The academics spent a year researching and liaising with various policing agencies across the world in order to discuss solutions and interpret how different cultures respond to the same concerns with varied approaches. The PEARLS conference provided an opportunity for the Service to learn from other agencies to prevent similar mistakes from reoccurring and to advance the Service's understanding of how fragile states lead to fragile communities.

Toronto is an international city with international issues and concerns; this was an opportunity to utilize the expertise of leaders and academics to best develop the Service for the future in order to provide a modern and effective police service.

I will be in attendance to answer any questions the Board may have regarding this report.

**To:** Chair and Members  
Toronto Police Services Board

**From:** Wendy Walberg  
City Solicitor

**Reference:** Civil Litigation Proceedings where Historical Contact Data is Relevant or At Issue

At its meeting held on November 17, 2016, the Board requested the City Solicitor to review and report annually on the status of any civil litigation proceedings where Historical Contact Data is relevant or at issue (Minute No.P250/16 refers).

Historical Contact Data has been defined in the Board's Regulated Interactions Policy. It refers to all Person Investigated Card (Form 172), Field Information Report (Form 208), Community Inquiry Report (Form 306), and Community Safety Note (Street Check) records submitted into the Service's records management systems prior to January 1, 2017 and may include any such submitted record whether or not it would have been categorized as a Regulated Interaction Report had it been submitted on or after January 1, 2017.

Generally, civil litigation proceedings against the Board and the Service are defended by the City Legal Division and the outside law firm of Borden Ladner Gervais under the City's insurance defence process. We have canvassed the lawyers that are handling matters for the Board and the Service. Civil proceedings where Historical Contact Data is relevant or at issue include civil claims in the Superior Court, human rights complaints and judicial review proceedings.

Below is a chart listing information on the current proceedings where the assigned defence lawyers are of the view that Historical Contact Data is relevant or at issue.

**CHART OF POLICE CLAIMS WHERE "HISTORICAL CONTACT DATA" RELEVANT**

Name of Claimant	Court/HRT0	Police Board Lawyer	Nature of Claim	Current Status
C.R.	Superior Court Claim	City Solicitor	Negligent investigation claim	Dormant for 4.5 years.
C.R.	Superior Court Claim	City Solicitor	Negligent investigation claim	Dormant for 4.5 years.
G.S.	HRT0	City Solicitor	Discrimination based on race, colour, ancestry, ethnic origin, association with a person identified by a ground listed above, and reprisal	The parties are waiting for Tribunal's decision on the Board's interim RFOP to strike.
A.K.	Superior Court	City Solicitor	Claim relating to arrest.	Ongoing.
BADC	Superior Court Class Action	BLG	Class Action claiming Charter and other damages for alleged racial profiling and carding	Claim issued in 2013 but no steps taken to certify the claim.
M.M.	HRT0 Application	City Solicitor	Alleging discrimination based on race, ethnic origin, reprisal	Ongoing.
GUS	HRT0 Application	City Solicitor	Alleging racial discrimination	Ongoing.
N.R.	Superior Court	City Solicitor	Alleging excessive use of force and discrimination	Ongoing.

Both internal city lawyers and external counsel also note that civil actions relate to events which typically occurred several (occasionally many) years in the past. In many such cases there are allegations arising out of or connected to police investigations. Commonly police investigations will have involved an investigator performing a "unified search" of then available police data bases for some reason. Some of those data bases may have included Historical Contact Data. In such cases the existence of Historical Contact Data will therefore be part of the narrative of what was reviewed in the course of an investigation. However, in these other cases our counsel are unaware of any instance where the Historical Contact Data itself is or is likely to be directly "relevant or at issue."

Also, the Board is and should be aware that the Ontario Human Rights Commission is conducting an Inquiry into potential racial profiling and other issues where the Historical Contact Data is directly relevant.

### New Item(s)

20. April 17, 2019, from Mark Saunders, Chief of Police  
**Re: Retention of Transgender Subject Matter Expert**

## Toronto Police Services Board Report

---

April 17, 2019

To: Chair and Members  
Toronto Police Services Board

From: Mark Saunders  
Chief of Police

### **Subject: Retention of Transgender Subject Matter Expert**

#### **Recommendations:**

It is recommended that the Toronto Police Services Board (Board):

1. Approve the retention of a single source contract to retain Ty Smith as the subject matter expert to assist in the development of transgender inclusive policies, procedures, orders, forms and training pursuant to Minutes of Settlement between the Ontario Human Rights Commission (O.H.R.C), the Board and the Chief of Police (Chief); and,
2. Provide the necessary funding in its 2019 and 2020 operating budgets, at an estimated cost of \$36,500 and \$55,000 respectively, including taxes.

#### **Financial Implications:**

The 2019 cost will be \$36,500, and funding is available within the Board's 2019 operating budget. The 2019 total amount of approximately \$36,500 for the retention of a consultant is the remaining amount from \$55,000 previously approved by the Board for the implementation of the Minutes of Settlement to cover the cost of the subject matter expert through a request that encompassed the period from 2017 to 2021 (Min. No. P228/17 refers). The 2020 cost is estimated to be \$55,000. The 2021 estimated cost will be determined pending the execution of the project. An extension to this project may be required beyond this year.

#### **Background / Purpose:**

At its meeting on December 19, 2016, the Board approved entering into a single source contract to retain D. Ryan Dyck as the subject matter expert for the duration of five years. This was to assist in the development of transgender inclusive policies, procedures, orders and forms, pursuant to the Minutes of Settlement, at an estimated cost of \$55,000, including taxes (Min. No. P228/16 and C207/16 refer). This retainer commenced in 2017 and concluded in August 2018 as R. Dyck secured alternate employment and ended his contract with the Toronto Police Service (Service). During

his tenure, progress was made in several areas, including the development of a proposed approach to implementing the measures outlined in the Minutes of Settlement; however more work is still required to fulfill the terms.

Pursuant to the Minutes of Settlement, the Board has an obligation to retain a subject matter expert as a consultant, to assist in the development and evaluation of transgender inclusive policies, orders, forms and training for the Board and the Service. An agreement with the O.H.R.C. stipulates that the Board, the Service, and the O.H.R.C. can mutually agree on a suitable candidate to fulfill the scope of work. The Board and Service consulted the Ontario Human Rights Commission in the identification of suitable experts to interview. Interviews were held by the Executive Director of the Board and the Manager of the Diversity & Inclusion unit. Ty Smith was identified as the most appropriate subject matter expert to undertake this initiative to increase community engagement with members of the Lesbian, Gay, Bisexual, Trans, Queer and Two-Spirited (L.G.B.T.Q.2+) communities.

**Discussion:**

Ty Smith is a senior project manager and facilitator, with an acute political sense and strategic lens, as well as strong knowledge of L.G.B.T.Q.2+ issues, anti-racism and anti-oppressive practice. His expertise in facilitating small and large groups of all organizational levels to identify barriers to equitable inclusion, develop proactive and reactive inclusion strategies, and implement changes and resolve conflict effectively, align with the guidelines of the Toronto Police Service's Gender Diversity and Trans Inclusion project.

**Conclusion:**

The Chief has reviewed the recommendation of the Ontario Human Rights Commission, consulted with the Board, and recommends the appointment of Ty Smith, on a single source contract basis.

Deputy Chief Barbara McLean, Human Resources Command, will be in attendance to answer any questions the Board members may have regarding this report.

Respectfully submitted,

Mark Saunders, O.O.M.  
Chief of Police
